CHICAGO RAIDS  
STAGED ON EVE  
OF GANG BURIAL

Police Dismantle Gambling Houses as Gang-land and Politicians Prepare for Czar's Funeral.

TWO MORE MEN  
TAKEN FOR RIDE

Disappearance of Pair Thought To Be Equal to Killing of Leader; State Politics Is Involved.

Chicago, March 25.—(AP)—Organized gambling, reputed cause of much of gangland's machine gun marksmanship and bomb-tossing, was brought to an abrupt halt today, the Chicago police declared.

Chicago newspapers yesterday published names and addresses of places they charged were operating games of chance. Police Commissioner Hughes said the list as published was "mostly false."

"I am absolutely satisfied with the present crime situation in Chicago," he asserted. "That's not hot air; I can prove it with figures. Of course, there is some gambling, but it is not as bad as the newspapers picture it. We reduced crime 75 per cent in February from last year's figures."

He issued orders for another cleanup, that is, that undertaken during the Christmas season.

Four raids were conducted in the Loop section and 30 men were arrested as alleged operators of gambling places. Police also confiscated paraphernalia, including roulette wheels, cards, racing charts and black jack tables.

**LITTLE ITALY READY FOR ESPOSITO FUNERAL.**  
Chicago, March 25.—(United News)—Echoes of the murder of "Diamond Joe" Esposito, which are expected to continue through the Illinois primary April 10, reverberated loudly today as "Little Italy" completed its elaborate plans for the funeral of the Italian political leader, here Monday.

Two Italians were kidnapped from a taxi by four armed men and after a thorough search of the district police advanced the theory that Esposito had been "taken for a ride," because of possible knowledge of Esposito's murder last Wednesday night.

"Diamond Joe" was a staunch supporter among his people for U. S. Senator Charles S. Deneen. He was the Deneen candidate for committee-man of the 25th ward, which district formerly was known as the "bloody nineteenth."

Several persons are said to have witnessed the shooting of Esposito, who fell in front of his home under a volley of shotgun and revolver bullets. Fifty-eight bullets were found in his body. "Taken for a ride," the two men is the latest development linked with the Italian leader's murder.

Attorney General Oscar Carlstrom, a Deneen politician, has ordered an investigation of the whole Chicago crime situation following the murder. Esposito was given two threats, it was learned, to "get out of politics." He was opposed in the ap

AMERICAN SHOT  
ON SHIP IS FOUND  
TO BE U. S. OFFICER

Dover, England, March 25.—(AP)—S. H. Geer, who was brought off from the steamer City of Alton suffering from a gunshot wound, is now declared to be a graduate of the United States naval academy and the commander of an American destroyer in the world war.

There still is no explanation of how the wound was inflicted. Examination shows that a bullet pierced his left side, just missing the heart, and lodged in the spine. The position makes it doubtful whether an operation can be performed.

Geer is in no condition to talk, and the local physician who responded to a wireless call for help from the City of Alton did not learn how his patient was wounded.

Nation Will Honor  
Fall's Name, Says  
Wife of Secretary

World Cannot Produce More Honorable Man, Declares Defiant Mate as Fraud Trials Near.

BROKEN OLD MAN  
SEEKS SOLITUDE

Depositions in Sinclair Trial Will Be Taken This Week; Letters Curse and Praise Accused Official.

El Paso, Texas, March 25.—(United News)—The story of Teapot Dome may receive some important additions Thursday when the deposition of Albert B. Fall is taken here for use in the conspiracy trial of Harry F. Sinclair.

The former secretary of the interior has said that he wants to tell all he knows of the deals which have linked his name with accusations of corruption for the past five years. He has agreed to public testimony, but it seemed probable that the contents of the deposition would not be made known until it is presented at the Sinclair trial, which starts in Washington April 4.

Broken in health, surrounded by medicine bottles, glasses and spoon on nearby tables, Fall spends most of his time in the library of his home here as he awaits the opportunity to speak of the scandal which has brought him to this point.

He said he will use to the fullest possible advantage. About him hover his two daughters and Mrs. Fall, and back of the Teapot Dome investigations and accusations of conspiracy against Fall, is a story concerning the former cabinet official's wife, which probably never will be fully told.

Mrs. Fall always has vigorously defended her husband, but she likewise always has avoided saying much about it for publication.

"You can search his world over and you cannot find a man freer of corruption or ideas of corruption than my husband," she says. "The day will come when he will be praised instead of being damned by politicians. He may not be here then, but that day will arrive."

Mrs. Fall receives all visitors at the Fall home and shields her husband as much as possible from annoyance. She too, appears tired and worn.

Fall says he received a threatening letter since the Teapot case began. He has received numerous other letters and reads them all. Those with good suggestions he keeps, he says.

Cranks have suggested that he use cures ranging from bourbon whiskey to gunpowder.

THOUSANDS VIEW  
S-4 IN BOSTON PORT  
AFTER COLLISION

Boston, March 25.—(AP)—Thousands of persons visited the Charleston navy yard today to view the submarine S-4, the steel hull of which 40 men went to their deaths when the vessel was in collision with the coast guard destroyer Paulding off Provincetown last December.

The visitors were not permitted to enter the ill-fated submarine, which is in drydock. The throngs clustered about the dock and gazed upon the ship which contributed to the list of the navy's major peace-time disasters.

To give the visitors a knowledge of submarine construction, navy yard officials allowed groups to enter the S-4, a sister ship of the S-4.

The ships of the salvage fleet which were engaged for three months in raising the S-4 also were open to the inspection of the visiting crowds.

AIMEE M'PHERSON  
INJURED IN IOWA  
WHEN AUTO SKIDS

Des Moines, Iowa, March 25.—(AP) Aimee M'Pherson, evangelist, was injured at night when her automobile skidded off a muddy highway near Creston, whether she was driving toward a Sunday service. Her husband, Mr. M'Pherson, was injured and the party returned to Des Moines.

'Dead' Negro  
Escapes Cops  
And Coroner

Shot Through Head, Fugitive 'Possums as Officers Report His Demise.

Sidell, La., March 25.—(AP)—Left for dead after having been shot in the head in a pistol duel with Police Chief Percy Saxon, Cornelius Sims, 27-year-old negro, wanted in connection with alleged thefts, "came to life" and scattering a group of on-lookers, escaped to the woods this afternoon where he was being hunted by a posse.

The negro had just been granted a ride in a passing automobile when the police chief recognized him. Sims was said to have opened fire as the police chief approached. Saxon returned the fire and dropped the negro with a bullet in the forehead.

Showing no signs of life, Sims was left where he had fallen. After a crowd had gathered and Police Chief Saxon left to summon the coroner, Sims suddenly revived and, covering the spectators with his pistol, staggered off into the woods where he soon eluded pursuers.

SENATE PROBES  
BAFFLED IN TRAIL  
OF TEAPOT BONDS

Find Where Three Shares of "Loot" Went, But Are Unable To Trace Fourth Share.

LOUISIANA AND ARKANSAS  
DOPED AS SPOTS WHERE  
BREAK WILL COME IN  
SOUTH, OBSERVER SAYS.

Washington, March 25.—(AP)—Although following every one of the many leads that came to it daily, the Senate Teapot Dome committee still is without any definite clue as to the identity of the fourth participant in the \$3,080,000 Liberty bond profits of the Continental Trading Company of Canada.

Two of the shares have been definitely traced to H. M. Blackmer, former chairman of the board of the Mid-West Refining Company, and James E. O'Neill, former president of the Prairie Oil and Gas company, missing witnesses in the criminal conspiracy case in which Harry F. Sinclair is to go on trial on April 4.

The Senate investigators are fairly well convinced that Sinclair participated in a third share, as they have traced \$235,000 of the bonds to Albert B. Fall, former interior secretary, who leased Teapot Dome to the wealthy oil operator, and \$280,000 of them to Will H. Hays, who distributed this sum among republican leaders to help extinguish the debt of the republican party in 1923.

Believing that he faced the end of his life, "Neel" made a special trip from Europe to Montreal to make restitution to the Prairie company, and the evidence is that the original bonds, in the total of \$750,000, now are held in the treasury of the Prairie Oil and Gas company, with the coupons still intact in accordance with O'Neill's request that they be held until court action against Sinclair has been ended.

Blackmer likewise made a special trip from Paris to Montreal to put his share of the profits, \$300,000, in escrow pending determination whether there is to be any action by the Mid-West or its parent company, the Standard Oil Company of Indiana, to make recovery, since the profits were made on oil sold jointly to the Sinclair Crude and the Prairie Oil and Gas company.

The preponderance of evidence is that Blackmer was the driving spirit in the negotiations with the late A. E. Humphreys which culminated in the Continental company obtaining a contract to purchase the Humphreys oil tract of which is held by the Indiana Standard and the Prairie Oil and Gas company.

These contracts were signed at a conference in New York city on November 17, 1921, which was attended by Blackmer, O'Neill, Sinclair, Humphreys and Rose. The latter, chairman of the board of the Indiana Standard, and former Senator Charles Thomas, of Colorado, who, as counsel for Humphreys, drew up the contracts. Stewart and Sinclair joined in guaranteeing the Continental contract to Humphreys, but the Indiana Standard chairman had testified emphatically that he did not make a cent out of the deal and had no personal knowledge as to the distribution of the bonds bought with the Continental profits.

The committee still is casting about for information as to the fourth share of the profits while it continues the search for all the funds which Sinclair is assumed to have received. It will meet late this week for the examination of several witnesses, the names of whom are withheld pending the serving of subpoenas upon them.

MAN AND WOMAN  
DIE IN CAR CRASHTwo Other Men Believed  
Dying When Automobile  
Hits Pole in Elberton Street.

Elberton, Ga., March 25.—(Special)—Carl Greibach, of St. Cloud, Minn., was instantly killed; a Mrs. Wright, of Toccoa, Ga., died of injuries, and two other men were perhaps fatally hurt when the car in which they were riding struck a telephone pole here Sunday night.

The injured men are Art Robinson and Carl Coleman, both of St. Cloud, Minn.

According to reports the car was traveling at a speed of more than 60 miles an hour when it struck a curb and crashed into the pole in the residential section of Elberton street. Greibach's death was instantaneous, while the young woman, employed at a granite company here as stenographer, was so severely hurt that she died on the way to a local hospital.

The two other men are not expected to live, physicians stated.

HARDMAN RELATIVES  
HURT IN WRECK

Valdosta, Ga., March 25.—(Special)—Suffering injuries received when their automobile skidded and overturned on the highway near Gainesville, Fla., Sunday afternoon, Mrs. W. F. Staten, Sr., and her daughter, Miss Klein Staten, were brought to a Valdosta hospital for treatment.

The party left this city about noon today for Gainesville to meet Mrs. A. M. Watten, of Thomasville, daughter of Mrs. Staten, who was en route home.

Mrs. Staten had no broken bones and it was stated at the hospital that unless it developed that she was injured internally, her condition would not be serious. Miss Staten suffered a badly cut arm and some bruising as a result of the accident.

Mrs. Staten is an aunt and Miss Staten a cousin of Mrs. L. G. Hardman, of Atlanta.

SMITH'S NAME  
S PERENNIAL  
PART PUZZLE

"If Democrats Don't Name Him This Year He'll Keep Coming Back," Says Sullivan.

TWO STATES HOLD  
KEY TO SOLIDITY

Louisiana and Arkansas Doped as Spots Where Break Will Come in South, Observer Says.

BY MARK SULLIVAN.  
Washington, D. C., March 25.—The most significant event in the democratic situation this past week was the announcement that the Arkansas delegation would be largely pro-Smith, followed by a denial of that statement by both the Arkansas senators at Washington. The denial, or more accurately, the strong doubt expressed by Senator Robinson, of Arkansas, attracted particular attention because he is the senior senator from the state, because he is the official democratic leader of the senate, and because he is clearly one of the foremost national leaders of the party.

As between the original announcement which ran one way, and the subsequent denials and strong doubts, it can be said that a well-informed source of judgment within the senate inclines to the belief that the bulk of the Arkansas delegates as chosen are personally disposed to let the nomination go to Smith. Their position is based largely on one assumption, which has weight with many democratic leaders everywhere, as discredited by the rank and file. The assumption is that in the ensuing campaign against the republicans, Smith would have a real chance to carry New York state with its 46 electoral votes, and therefore a chance to carry the country, whereas no other aspirant is believed to have any such chance.

Appeals to Party Leaders.  
An accompanying argument which moves party leaders, even dry ones, but has less weight with voters, is that if Smith is denied the nomination from this source the same way is an argument which says that if Smith is not nominated, he and the factional embitterments associated with him will be back again in four years, and eight years, and twelve years; whereas, if he is nominated now, the party's factional troubles from this source will be over, one way or the other.

As respects Arkansas, the democratic drys have feared two possible breakings in the recent week tripartite naval conference at Geneva. They were, in effect, identical with the reduction in naval tonnage, addressed a note to the American, French and Japanese delegations, setting forth his government's proposals. They were, in effect, identical with the reduction in naval tonnage, addressed a note to the American, French and Japanese delegations, setting forth his government's proposals.

Lord Cusheuden, having on the first day of the debate called attention to Great Britain's willingness to consider reduction in naval tonnage, addressed a note to the American, French and Japanese delegations, setting forth his government's proposals. They were, in effect, identical with the reduction in naval tonnage, addressed a note to the American, French and Japanese delegations, setting forth his government's proposals.

Devious Political Paths Bring Library Censor and Mayor to Cross Roads.

Chicago, March 25.—(AP)—The devious paths of politicians have brought Mayor William Hale Thompson and U. J. "Sport" Herrmann to the crossroads of their friendship less than six months after "Sport" headed the mayor's committee to purge the Chicago library of pro-British books.

The political break of the two former allies was revealed today when Herrmann, sportsman and theater owner, made known he would hoist a banner for Louis J. Emmerson as his choice for governor, despite Thompson's renewed alliance with Governor Len Small who is seeking renomination against Emmerson.

Herrmann first gained prominence during the mayor's recent anti-British crusade when he announced he would make a bonfire on the lake front of the books of the pro-British reading he might find lurking in the library shelves. He said he could not fathom the mayor's reasoning in supporting Small and that he would unfurl a banner for Emmerson even if Thompson would deny him a permit to string it up in front of his Loop theater.

"I'll put up the banner, permit or not," "Sport" said, "and if necessary I'll sit in my office and guard it with a shotgun if anyone tries to take it down."

Herrmann said the mayor apparently was suffering from "democratic paralysis." "I would say he is contrary," he said. "I can't figure out why he would climb back on the governor's hand wagon after the ships extended from 20 years to 25 years."

The labors of the preparatory disarmament commission therefore ended with little accomplished toward the

FIASCO AT GENEVA  
ALLENATES RUSSIA  
AS SOLE RESULT

Disarmament, now and forevermore, the theme submitted to the preparatory disarmament commission at Geneva by the Russian soviet government, brought anything but harmony among the delegates last week. Indeed, there were loud, discordant blasts from several sections of the assembly room and decided protests in minor key from others.

TWO REBUKES ADMINISTERED  
TO SOVIETS, NO REAL  
PLAN FOR DISARMAMENT  
ONLY WORK OF PARLEY.

BY OSCAR WATSON.  
Cable Editor The Associated Press.  
Disarmament, now and forevermore, the theme submitted to the preparatory disarmament commission at Geneva by the Russian soviet government, brought anything but harmony among the delegates last week. Indeed, there were loud, discordant blasts from several sections of the assembly room and decided protests in minor key from others.

Maxim Litvinoff, vice commissar of foreign affairs, who headed the soviet delegation, set forth his proposals, which contemplated the scrapping of all armaments and armament producing factories within four years, and, as the American secretary of state, Frank B. Kellogg, has been trying to negotiate pacts for the outlawry of war, M. Litvinoff invited the United States to join hands with Russia in its disarmament project, and thus bring about peace.

No New Date Set.  
But the British lion in the person of Lord Cusheuden roared against the entire proposal, and Hugh S. Gibson, the American ambassador to Belgium, in quiet tones informed the Russian representative and all the delegates that if the Washington government was assenting itself to negotiate treaties to prohibit war as a political instrument it was because that would be a good step in the way of preparation for disarmament.

Russia was supported by Germany, and for a brief period by Turkey. When it became apparent that the soviet plan was certain to receive overwhelming defeat, Count von Bernstorff, former German ambassador at Washington, suggested that a date for a disarmament conference be set. This was rejected.

In the meantime Russia submitted a second series of proposals seeking a reduction of armaments. These provided for progressive disarmament—reducing armies and navies in proportion to the importance of the various countries and their present armed conditions. The new plan met with no more favorable reception than the original one, except the committee decided to refer its proposals to the various governments.

Lord Cusheuden, having on the first day of the debate called attention to Great Britain's willingness to consider reduction in naval tonnage, addressed a note to the American, French and Japanese delegations, setting forth his government's proposals. They were, in effect, identical with the reduction in naval tonnage, addressed a note to the American, French and Japanese delegations, setting forth his government's proposals.

Drops of Water Execute  
Condemned in Colorado

UNIQUE GALLOWS AWAITS HERMIT SLAYER

L. C. LANKFORD, 18,  
VICTIM OF SUNDAY  
TRAGEDY AT CLIFF

Denver, Colo., March 25.—(United News)—Colorado's ingenious method of execution, by which a drop of water sends a man to his death, will be employed twice this week at the state penitentiary in Canon City.

Ray Noakes and Arthur Osborn, convicted of the slaying of Fred N. Selak, have lost all appeals, both to the courts and to Governor William Adams. They will be executed some time during the week beginning Monday.

Colorado's method of carrying out capital punishment is unlike any other in the United States. No hangman is necessary.

A platform is constructed about two feet above the floor of the death chamber. The condemned man stands on

this platform while a black cap is placed over his head and the noose adjusted. Then he steps onto the trap.

The weight of the man's body on the trap trips a lever which, by a system of pulleys, pulls the tap from a water tank in an adjoining room. When the last drop of water is drained from the tank the reduced pressure causes the tripping of another lever and a 350-pound weight, attached by pulleys to the noose, is dropped.

The weight jerks the man in the air, usually breaking his neck and causing instantaneous death.

Selak was a hermit of the Grand Lake district. Osborn and Noakes hanged him from a tree after a quarrel over land boundaries.

FRIENDS OF LINDY  
DENY RETIREMENTAtlantic Hero Flies Out  
of Sheer Love and Will  
Not Stop for Years, Is  
Answer to Questioners.

Washington, March 25.—(United News)—Will Lindbergh quit flying? Is the youth, who captivated the world by his skill and daring, ready to retire to the staid realm of mother earth?

Contrary to persistent rumors, his friends and close associates here say, "no."

"It is foolish to think of Lindbergh retiring," one of the aeronautical leaders of the country said. "He is a young man, much too young to think of retiring. The air is his element. It is as easy to think of Lindbergh staying on the ground as it is to think of a duck refusing to swim."

There is no question but that Lindbergh is tired of formalities, festivities and the generous but sometimes over effective attentions showered upon him by the public. But as to any talk of retirement, his associates say, "impossible."

YOUTH PLUNGES  
800 FEET  
FROM STONE MOUNTAIN TOP  
WHILE HUNDREDS LOOK ON

ONE DEAD, TWO INJURED;  
MACON IN DARKNESS AND  
DECATUR WATERLESS, TOLL  
OF STORMS.

L. C. LANKFORD, 18,  
VICTIM OF SUNDAY  
TRAGEDY AT CLIFF

Stone Mountain, Ga., March 25.—(Special)—L. C. Lankford, 18-year-old son of Mrs. J. E. Lankford, of 9 Lake View drive, was instantly killed when he lost his foothold and fell from the steepest side of Stone Mountain late Sunday afternoon.

Young Lankford, in company with four young friends, had made an excursion to the top of the mountain and was on the north side when the tragedy occurred.

According to witnesses, the boy ventured too far out on the perilous edge of the precipice where he made a misstep and began slipping.

His body hurtled approximately 800 feet to the base of the cliff.

Lankford was accompanied by Joe Denson, 31 First avenue, N. E.; J. P. Bradford, 19 Clay street, N. E.; Cary Snyder and Price Kirk.

"We had been wandering around on top of the mountain," young Denson said, "and L. C. and I were together near the edge of the mountain. The others were further off from the precipice. I sat down to rest and look at the carving, and L. C. went on to the edge of the mountain. I didn't notice him particularly, but the next time I looked in his direction, I couldn't see him. I still don't dream he had fallen over, I thought he had merely gone down to the flagpole, the danger signal on the precipice, and where he could not be seen by me."

"Then I heard shouts at the base of the mountain and some of the boys hollered 'He's fallen.' I crawled to the edge and looked over, but I could not see him. I turned over two or three times, according to eyewitnesses, and where he could not be seen by me."

The point where he fell was the steepest and highest side of the precipice. Hundreds of motorists below, looking up at the Confederate memorial being carved on the brow of the mountain wall, were horrified when they went up that "some one is falling."

Fought for Hold.  
Gazing about 300 feet to the west of the carriage they beheld the figure of young Lankford as he began his downward plunge. The boy was clutching desperately for a finger hold on jutting rocks to break his lost foothold.

For the briefest imaginable instant those watching from below saw the lad's hands catch on a margin, from which he had merely gone down to the barest flicker of a second.

Then he apparently lost his grip and his body hurtled through the air on its 800-foot plunge to the base of the mountain. It turned over two or three times, according to eyewitnesses, and where he could not be seen by me."

Still, horror-stricken, crowds of motorists swarmed to the spot where the boy had fallen. He was crushed beyond recognition. Carls in his pocket bore his name, and a belt buckle indicated he was a student of Georgia Tech. Later, however, it

# WOMEN STABBERS GET TRIAL TODAY

Birmingham, Ala., March 25.—(P)—Bond for Mrs. Mabel Montebardo, Miss Cecil Tubbs and their brother, A. H. Tubbs, held in the Jefferson county jail on charges of assault with intent to murder H. F. Blake, Calera chief of police, will be sought Monday afternoon in Columbiana, the scene of the attack.

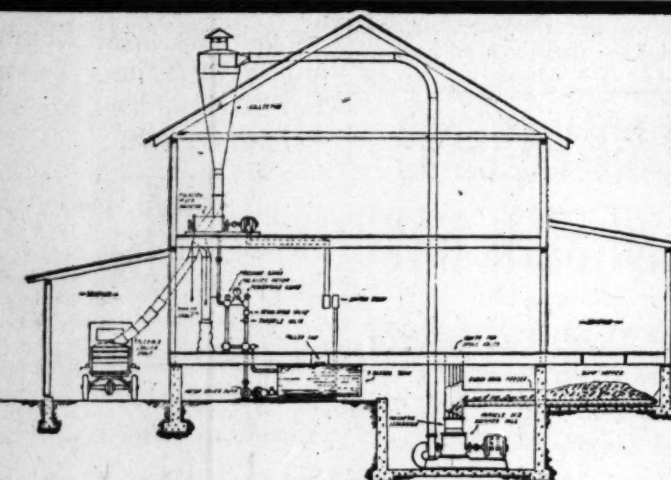

Blake was stabbed by Miss Tubbs as he thanked a jury for freeing him of murder charges in connection with the death of Louise Montebardo, her niece and pretty sewing machine saleswoman, who died from a bullet wound through her head last November 14.

Mrs. Montebardo, mother of the girl, shot at Chief Blake but missed.

# Stop Getting Up Nights

# Own This New Custom and Commercial Sweet Feed Mill

You can now own and control, without fear of competition, the sweet feed and mixed poultry feed business in your community.

It is the biggest money making business with products in demand right now by your community in which you can engage and it is simple and easily understood. Without any experience you can make the same kinds of sweet mixed and poultry feeds that are now shipped into your community at such a large profit. You can make sweet feeds cheaper than the big mills. We will furnish you with all of the formulas for making them and show you exactly how easily it is done.

For the first time in history you can do a custom sweet feed business. You can make sweet feed out of your customers' grain at the same time you are grinding them. Just think of the advantage of making sweet feeds for your customers out of their home grown grain.

Two great inventions make this possible.

The Miracle Ace Hammer Mill is one, and on account of its cast enblock rotor and heavy 23-pound tie head corrugated steel hammers is the most efficient kind of mill for grinding corn, sorghum, oats, cutmeat, hulls, hay or any other kind of feed. These improvements enable this mill to operate with half of the power of other mills, which means that much more profit.

The Miracle Ace Hammer Mill is built in seven sizes and in both belt and direct motor drive.

The Miracle Cold Molasses Process is the other thing that has made it possible to run a custom sweet feed mill. It is the new invention that has created more interest in feed making than anything in 50 years.

It is a simple process and easily understood and controlled, for putting cold molasses on feeds. No heating required. No skill is necessary.

You make three profits on custom feed milling. First, the profit on grinding your customer's feed; second, the profit on the molasses you sell him; and, third, the profit for mixing the molasses with his feed. You make over 2 1/2 times the profit any other feed miller can make who does not have the molasses process, and it is all done at one time.

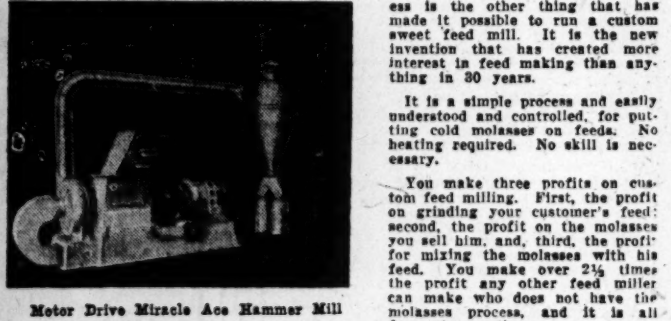

Profits that you can make: With an average sized MIRACLE ACE HAMMER MILL you can grind 2,000 pounds of feed in 20 minutes and for which you get the per hundred, or \$2; then if your customer wants, say 25% molasses on this feed, you will make \$3 on this sale; then this 2,000 pounds of feed is to be mixed together, for which you get 10c per hundred, or \$2.50, making a total of \$10.50 profit for your 20 minutes' work—and it is all done at the same time. With a large size plant operating most of the day it is possible to make a profit of \$100 per day. No other legitimate business within the reach of the average man can offer such profits as this new sweet feed business.

The Miracle Cold Molasses Process is the greatest invention and the most forward step ever made in feed making. It now enables every community to have its own sweet feed plant.

Think of this for a high grade business, one that you would be proud to own. There is nothing like it; there is nothing that will bring you in so much net profit each day on your investment and your time. It is the biggest money maker at which you ever had a chance.

Miracle Ace Hammer Mills and Miracle Molasses Processes are always sold on free trial. Send at once for our two booklets describing both the mill and process. One is, "THE MIRACLE ACE HAMMER MILL," and the other is, "THE MIRACLE MOLASSES PROCESS." Both are free and we will be glad to send either or both to you on request.

Custom Feed Plant, Plan "P." Blue Prints Free on Request.

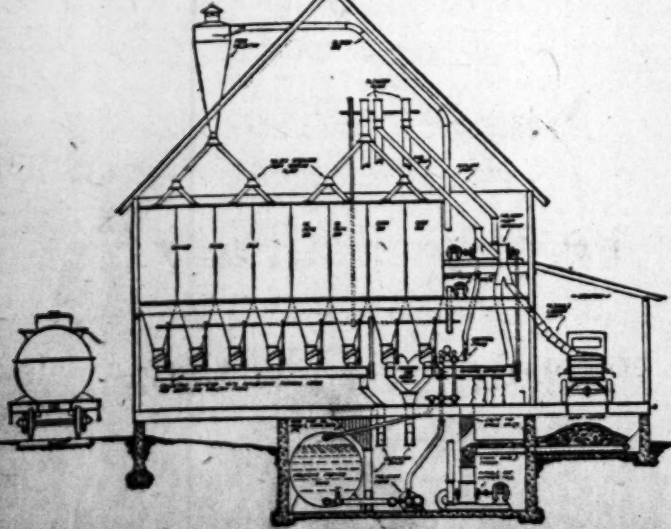

Motor Drive Miracle Ace Hammer Mill

# The Anglo-American Mill Company The World's Largest Builders of Grain Grinding Machinery

1030-1130 Kennedy Avenue, Owensboro, Ky.

P. S.—Our special factory representative, Mr. W. R. Thomas, will be at the Piedmont Hotel, Atlanta, Ga., on Monday, Tuesday and Wednesday, March 26th, 27th and 28th. Telephone or telegraph, or go and see him about this power saving feed grinding mill and this new molasses process and about your securing for your community the exclusive franchise for the molasses process for two years. But if you do not want to manufacture sweet feeds right now, then start with this, the most efficient feed grinding mill that is built, the Miracle Ace Hammer Mill. See Mr. Thomas either on the three days, March 26th, 27th and 28th.

Below is Our Commercial and Custom Sweet Feed Plant, Plan "B."

# Here's One Youth Who Defies All To Steal Auto

Of all the various appendages fastened by reckless collegiate youths on their equally reckless automobiles, it has remained for Malcolm Cook, Emory university student, to make the first addition to his car which was useful or intended to be useful.

A glass jug fastened to the windshield, with a rubber tube extending from the mouth of the jug to the radiator cap, is Cook's new-fangled college addition for the purpose of preventing the wheezy old bus from running out of water on particularly trying hills. And that's handy when the brakes ain't so good.

When the engine gets hot and begins to condense the water in the radiator into steam, the steam rises into the jug, is condensed back into liquid form and descends again into the radiator.

Clever, eh?

Inspiration for the invention, Cook said, came when his car, which is a 1921 model and has been driven more than 75,000 miles, balked about midway of Signal Mountain because the water had boiled out.

The condenser is not the only useful apparatus of the automobile, Cook says he can shift the gears of the old car with his feet and guide it with his knees, leaving both arms free to do anything.

And the bus may be old, but it's the world to its owner, and resulting in his having installed a dozen safeguards against theft. Recently, he relates, in another city, he was forced to leave the automobile parked overnight on the street. About midnight, Cook said, he heard someone trying to steal the car.

He turned over and went back to sleep, for the ignition was cut off in three places, the gas in three places and the battery was under his bed. Tie that!

# BAINBRIDGE TEAMS WIN TARIFF DEBATE

Bainbridge, Ga., March 25.—Through the successful debating of Robert Jackson and Irene Peacock on the affirmative side of the subject, "Resolved, The High Protective Tariff Policy is Against the Best Interests of American Agriculture," for Bainbridge schools Friday night and that of Lorraine Ruskin and Louise Olliff for the negative side in the debate at Arlington, also for the local school, Superintendent E. G. Elean sees a very fine spirit of community interest in the second district meet here April 20.

The teams received unanimous scores and Bainbridge is happy that she will have representation at the district meet.

Three hundred guests are expected in Bainbridge for the two-day meet and, with the winners of circle number one being home pupils, additional enthusiasm will attend every phase of the entertainment feature for the interesting visitors.

# THREE SLIGHTLY HURT WHEN AUTOS CRASH

Three motorists were slightly injured Sunday afternoon in an automobile crash on Ponce de Leon avenue, at the Highland avenue intersection. According to one of the drivers, O. H. MacDonald, of 729 Bonaventure avenue, he was waiting a traffic signal at the corner when another automobile struck his machine.

Police were told the latter car was operated by a woman who declined to give her name. The license number furnished by witnesses was issued to U. H. Patrick, of 212 Twelfth street, records at the state capital show.

Mr. MacDonald was cut and bruised from the impact, as were the other two occupants of his machine, Mrs. MacDonald and Mrs. J. S. MacDonald, of 740 Barnett street, a sister-in-law of the driver.

# AFGHAN ROYALTY BUYING LIBERALLY, BUT HAVEN'T PAID

(Special Cable to The Chicago Tribune and The Constitution.)

London, March 25.—The London shopkeepers alternatively are congratulating and commiserating themselves over the fact that the Afghan majesties, King Amanullah and his queen visited Berlin and Paris before coming to London.

The shopkeepers were looking forward to sharing the fabulous wealth of the east and at first were disposed to be peeved because the French and German merchants had first crack at the Oriental purses. Now they have discovered that those purses are empty and their credit bad, and they are rather glad, on the whole, that they escaped.

When the first orders were placed, the Bond street shopkeepers made the usual, perfunctory inquiries about their credit, but delivered the goods. Then came a report by one of the big five banks that the Afghans had bought many thousands of dollars worth in Berlin and Paris, but had not paid anybody.

# POLICE QUIZ MAN THOUGHT GUILTY OF KILLING WIFE

South Bend, Ind., March 25.—Police are convinced that Roman Luczkowski, slew his 45-year-old bride of two months, Marie Montroy Luczkowski, whose 2,000 pound body was found stuffed in a wooden chest in the Luczkowski home in South Bend. They planned, however, to question him in an attempt to break down his persistent denial of any knowledge of the crime.

Charges of murder in the first degree will be filed against Luczkowski Monday, Assistant Chief of Police John Kuespert said.

# ORGANIST FRANK TO GIVE RECITAL HERE ON THURSDAY

Paul Frank, of New York, famous organist, will give a recital next Thursday night at the Wesley Memorial church, it was announced Sunday by Atlanta friends of Mr. Frank.

In addition to being an organist of widely-recognized ability, Mr. Frank is a nephew of Caesar Frank, composer of international renown. Mr. Frank is spending his vacation here and has consented to give the concert at the request of local admirers.

# JAILED STRIKERS TO SEEK RELEASE ON PERSONAL BAIL

Pittsburgh, March 25.—(P)—P. T. Fagan, president of district No. 5, United Mine Workers, tonight said he would ask that 64 union pickets be released on their own recognizance from the Allegheny county jail, where they have been held for court in default of bail in connection with picketing activities.

United Mine Workers officers said picketing activities would be continued despite the arrests.

# FAIR AND WARMER MONDAY WEATHER PROMISED CITY

After a day of thunderstorms and sudden showers Sunday, Atlanta today will return again to "fair and warmer" weather, according to forecasts of the national weather bureau in Washington.

The maximum temperature Sunday was 72, while the mercury ranged at a low level of 56 degrees.

# YOUNG ITALIANS TAKE FASCIST OATH

Rome, March 25.—(P)—Rain that varied from mere drizzle to soaking downpours throughout Italy today failed to dampen the ardor of 80,000 youths who were graduated from the "avanguardisti" to the party badge and militiaman's musket of the fascist. The badge and musket were solemnly bestowed at colorful ceremonies in the principal centers of population.

In Rome the ceremony was held in the famous Piazza Del Popolo, from which Rome's conquering legions wended their way northward nearly 2,000 years ago.

More than 25,000 avanguardisti youths and youngsters from eight years upward belonging to the "balilla" literally choked the square.

They strained their lungs in the ardent yell when Mussolini appeared. Contrary to expectations, the duke made no speech but he listened as they took the fascist oath and then reviewed their phalanxes as they passed before him while the bands played "Giovinezza," the fascist hymn of youth.

The oath was given to the new members of the party who had reached their 18th year. The boys said: "I swear to execute the orders of the duke without discussion and serve with my life, to be with him in blood, the cause of the fascist revolution."

From the square the newly-enrolled legionnaires paraded down the Corso Umberto with the wind and rain, leaving their faces all the way to the Victor Emanuel II monument, under which the Unknown Soldier sleeps. After giving the fascist salute at that point, the youths and boys, drenched to the skin, dispersed to their habitations.

Twenty-four hundred young skiers from the Alpine provinces, who were brought to the capital for the occasion, were particularly applauded in the parade.

The city was decorated with flags and the fascist emblem of Victoria rode round the city. Tonight all public buildings were illuminated in honor of this ninth anniversary celebration of the foundation of fascism.

# LITHUANIA SENDS OFFICIALS TO MEET CHIEFS OF POLAND

Koenigsberg, East Prussia, March 25.—(P)—Meeting on neutral territory in this city, representative of Poland and Lithuania this week will make attempts to bring back normal relations between their countries. The difficulty dates back to October 9, 1920, when the Lithuanians were driven out of Vilna.

Koenigsberg was chosen as the site of the coming conference because diplomatic relations between the two countries still are suspended and a meeting could not be arranged on either Polish or Lithuanian soil. The conference in effect will attempt to put into concrete terms a declaration of peace made last December before the League of Nations at Geneva by General Josef Pilsudski, premier of Poland, and Augustinas Walde-maras, prime minister of Lithuania. That declaration ended the most imminent threat of open hostilities that has confronted Europe since the world war.

# E. D. McRAE NAMED ON THOMAS TAX BOARD

Thomasville, Ga., March 25.—E. D. McRae, of Boston, has been named by the county commissioners as member of the board of tax equalizers for Thomas county. His term is for six years, dating from January 1, 1928.

# Falls to Death.

Syracuse, N. Y., March 25.—(P)—Sigmund Florczyk, 17, was so anxious to beat four companions in cliff scaling at Green Lake in the Clark reservation today that he chose the most dangerous route. When he was less than 15 feet from the top of the perilous climb a miniature avalanche of loose rocks sent him headlong in a 60-foot plunge to death on the beach below.

A half-ton of rocks followed the youth as he fell.

# Newspaper Sold.

Waycross, Ga., March 25.—H. Brooks, well-known business man of Brantley county, has bought the Brantley Enterprise, weekly paper and official organ of Brantley county. It is announced from Nahutta.

The purchase was made from J. Alvin Murray, who for a number of years has operated the Nahutta paper. Editor Murray recently bought the Pearson Tribune, and will succeed B. T. Allen as its editor.

# Redfern Rumor.

Lima, Peru, March 25.—(P)—The wreckage of an airplane found on a Peruvian mountain, which was first thought as possibly belonging to the missing American aviator, Paul Redfern, now is believed by newspapers here to have been the machine in which the Peruvian aviator Cossio was forced down and killed some time ago while attempting a non-stop flight from Lima to Cuzco.

# Belmont Hospitality

EVERYONE EATS

BELMONT HOTEL service is regarded as a boon by residents of New York City as well as by the traveling public. As a matter of fact a large percentage of its income is derived from local patronage.

Scores of families use it whenever they want a particularly fine dinner or wish to entertain some esteemed friend better than it would be possible at home; also because they are absolutely relieved of all worry in the matter of arrangements or the vexing problem of the very best menu.

The Belmont barber shop has a similarly flattering patronage, and some of the most talked-of men in the United States use it whenever they can do so.

# Carolina Tobacco Raisers Profit By Huge 1927 Crop

Raleigh, N. C., March 25.—(P)—North Carolina tobacco farmers in 1927 produced one hundred million pounds of the weed more than they did in 1926. They received \$103,508,246.22 for the 1927 crop, as compared with \$94,844,066.02 in 1926.

Figures released today by the state federal crop reporting experts revealed that last season the amount of tobacco produced in the state was 470,460,301 pounds, selling for the average price of 22 cents.

In 1926 the total amount of tobacco produced was 371,578,758 and it sold for an average price of 25.53 cents. Wilson led the state as a tobacco market, 67,874,902 pounds passing through its warehouses. Wilson showed a gain of six million pounds over the season before. The average this season was 22.96.

# Hit by Auto.

Waycross, Ga., March 25.—(Special)—C. R. Fisher, special agent on the police department of the Atlantic Coast Line railroad, was run down by an automobile in the business section late last night and slightly injured.

Fisher was walking, and the car which struck him was driven by G. D. Martin. Mr. Martin stopped and carried the injured man to a hospital for medical attention.

# ASK HABEAS CORPUS WRIT FOR POLICEMAN

Miami, Fla., March 25.—(P)—The first broadside of the battle to get H. Leslie Quigg, Miami chief of police, and five subordinates charged with murder in the death of two negro prisoners out of jail, will be fired tomorrow morning when a habeas corpus application on behalf of the chief is heard.

Only the chief will be directly affected by the hearing itself, but contentions were advanced when the writ was filed which, if upheld, would invalidate all actions of the grand jury which indicted the six officers.

The principal fight will be made on the short time between drawing of the grand jury which investigated charges of police brutality to prisoners and convening of attorneys for the officers set up the contention that it was drawn February 14, only eight days later, while the law specifies that 15 days shall elapse between drawing and the beginning of deliberations.

Secondary points in the attack on the validity of the grand jury's action will be the contention that only the inquisitorial body were duly qualified grand jurors, and that the prosecutor had good opportunity to hand pick the jury. The contention was advanced, defense attorneys asserted in their pleadings, after it was learned that grand jury was drawn from two regular panels of 36 men when the first 36 yielded only half the necessary number. Only the nine drawn

from the last panel are qualified, and they do not make up a quorum, it was asserted. The attorneys also advanced the theory that the double panel allowed the prosecution its alleged chance to select the men it chose.

No answer had been filed by State's Attorney F. Vernon Hawthorne.

The same contentions were advanced in pleas in abatement, which will come to hearing Wednesday, in which all of the accused officers attacked the validity of the indictments against them.

# Mexican Delegates.

Mexico City, March 25.—(P)—The foreign office announced today that Mexico's delegates to the second American immigration conference, which is to open at Havana on March 31, will consist of Lerdo de Tejada, Mexico's ambassador to Cuba; Luis Vasquez Vela, chief of the Mexican department of immigration, and Dr. Manuel Gamio.

# INSTALLMENT PLAN THEATER TICKETS IS LONDON VOGUE

London, March 25.—(P)—Theater seats on the installment plan, is the latest scheme devised to take care of spectators at the Adelphi theater. "Clowns in Clover" has been running at that house for several months and seats have been in continuous demand. The management now announces that beginning Easter Monday places can be reserved six weeks in advance and paid for by installments of one shilling a week.

The New Science and the Old Religion, by Thornton Jacobs, is published by the Orlinthorpe University Press (price \$3.50 postpaid), and is selling literally all over the world. —(adv.)

## State Forestry Board Plans Big Expansion At Indian Springs, Ga.

**Board Has Assumed  
Charge of State Property  
and Will Improve  
Buildings at Resort.**

Jackson, Ga., March 25.—The Georgia forestry board, in accordance with an act of the 1927 session of the general assembly, has assumed charge of the state property at Indian Springs and will at once begin work of maintaining and improving the buildings and property on the state reserve.

E. M. Lufburrow, state forester, and C. B. Harman, member of the executive committee of the State Forestry association, were visitors here recently when they took formal charge of the property.

Bids will be advertised for at once to recover the present buildings, the work to be awarded to the lowest bidder, while the concessions will be awarded to the highest bidder, according to Mr. Lufburrow.

With the appropriation of \$3,000 obtained at the last session of the legislature, the members of the forestry board hope to be able to cover the buildings, paint them and do a good deal of work in cleaning up and making the property more attractive. As fast as funds are received from the concessions and other sources this will be used in improving the property, Mr. Lufburrow advises. It is also likely that funds from private sources will be available.

Following the cancellation of the old lease, when the Wigwam hotel was burned in 1921, the Indian Springs reserve has been administered by the government. Under the act of 1927, making an annual appropriation of \$3,000, the property was placed in the hands of the Georgia forestry board, and now that there is a designated agency, with power to act and funds available, it is believed the property will witness rapid and marked improvements.

Members of the forestry board, who see in the property wonderful possibilities as a health and pleasure resort, are particularly interested in the development of Indian Springs and will give the project close personal attention and supervision. They are especially struck with the possibilities of creating and developing a state park at Indian Springs, and as the state-owned property consisted of but ten acres, it is entirely likely that private individuals will be active in providing additional acreage and the park laid out to serve the people of the entire state.

Other far-reaching developments that may mature within the near future are suggested in connection with the development of the state forestry board.

### TWO NEGROES DEAD IN MONROE SHOOTING

Forayth, Ga., March 25.—Two Monroe county negroes shot each other to death here Saturday. They were Fred Hanson, age about 32 and Drewry McDowell, about 23. The shooting occurred in the Berner settlement when Drewry McDowell went to the field where Hanson was working, to remonstrate with him concerning alleged attentions to his wife. Hanson was almost instantly killed, while McDowell died in a Monroe hospital.

### 3 HELD IN WAYCROSS AFTER HIT-RUN SMASH

Waycross, Ga., March 25.—(Special.)—Mrs. Mack Creel, 19, is in a Waycross hospital suffering serious injuries sustained when she was struck by an automobile on the Waycross-Blackshear highway late last night, and E. A. Herrin, 19; J. J. Hester, 25, and C. L. Jernigan, 21, are in the Ware county jail in connection with the accident.

Mrs. Creel was seriously injured, according to reports from physicians today. The young woman was standing beside an automobile in front of the Creel home, about a mile and a half from this city. She was engaged in conversation with her sister, who was seated in the car. An automobile traveling from Waycross toward Blackshear struck the parked car, and then struck Mrs. Creel, according to the story told by the father of the injured woman.

The parked car was damaged to such an extent that it could not give chase to the drivers, who are said to have driven from the scene without stopping.

Mrs. Creel was rushed to a Waycross hospital in a Morrison ambulance, and after several moments time a searching party followed the fleeing car.

Turning off the Blackshear highway, the fugitive car raced toward Hebardville, firing several shots at their pursuers when the second car came within close range. At Hebardville the three occupants jumped from their automobile and made a break for the woods, where they succeeded in evading arrest for several hours. Police and other parties led the search, and when arrested early today the trio was turned over to Sheriff L. C. Warren to be held for safekeeping in the Ware jail.

### VANDERBILT YACHT TO STEAM NORTH FROM SAVANNAH

Savannah, Ga., March 25.—(P.)—W. K. Vanderbilt will leave early tomorrow morning on his palatial yacht, *Arcturion*, to continue his trip to New York, stopping en route at Charleston and other ports. Mr. Vanderbilt is returning from Galapagos Island, off the coast of Ecuador, where he collected many valuable marine specimens he has presented to museums. It was his second trip to Galapagos, his first trip being made about two years ago with William Beebe. Mr. Vanderbilt arrived in Savannah Saturday afternoon.

### Cotton Yield

Jackson, Ga., March 25.—(Special.)—The total production of cotton in Butts county from the crop of 1927 amounted to 6,885 bales, compared with 7,519 bales in 1926, showing a decrease of 634 bales. The 1927 crop was the second largest produced in the county since the boll weevil invasion in 1920.

## OFFICES AND SHOPS FOR RENT

Arcade service includes auto parking, post office, information clerk, lunch counter, rest rooms, waiting lobbies, public phones, parcel lockers and tenants' club room. No other building can boast so many advantages under one roof. Rent reasonable. Apply Room 200.

## PEACHTREE ARCADE

### Miserable With Backache?

Don't Neglect a Persistent Backache. It May Warn of Sluggish Kidneys.

DOES every day find you lame, stiff and aching? Do you feel tired, drowsy—suffer constant, nagging backache, annoying headaches and dizzy spells? Are the kidney secretions too frequent, scanty or burning in passage?

Colds and grip increase the poisons in the blood and bring extra work to the kidneys. When the kidneys act sluggishly, waste impurities remain in the blood and cause many unpleasant symptoms.

Thousands have learned to rely on Doan's Pills after winter's colds and chills. Doan's, a stimulant diuretic, increase the secretion of the kidneys and thus aid in the elimination of waste impurities. They have earned a nation-wide reputation. Ask your neighbor!

## SEVERAL MERCER POSTS NOT FILLED

Macon, Ga., March 25.—(P.)—Members of the faculty of Mercer university have been notified of their status, following the recent meeting of the board of trustees, it developed today.

Outside of the failure of the board to elect Dr. B. D. Ragsdale, for many years treasurer of the university, and S. W. Garrett, business manager, there are a number of other places that have not been filled.

The position of professor of church history in the school of Christianity, now held by Dr. Albert Henry Newman, was not filled. Dr. Newman celebrated 50 years of teaching last year and is widely known as a church historian. Failure to elect Dr. Newman, it was indicated by members of the board today, does not mean that he will not be retained on the faculty.

In the law school the dean, Joe A. McClain, Jr., was the only one re-elected at the meeting of the trustees, but that also does not mean that the full faculty will not be retained. It also was explained.

No salaries were reduced in any department, it was ascertained. Not only is there to be a registrar elected, but the trustees decided to elect a nurse.

There were no elections in the athletic department, it was ascertained, the matter of selecting an athletic board being left to Dr. Spright Dowell, the new president, who will return here for another meeting of the board during commencement week in June.

At the time that Dr. Dowell returns in June he also will make recommendations for filling the positions that have not been filled up to this time.

## REED BEGINS SECOND SPEECH-MAKING TOUR

Washington, March 25.—(P.)—Senator Reed, of Missouri, already a much traveled presidential candidate, set out tonight on another stump tour which will take him into a dozen or more southern and central western states.

It also will afford him an opportunity to deliver at least three speeches in Wisconsin before the April 3 democratic primary in that state, where he is fighting it out with Governor Smith, of New York, and Senator Walsh, of Montana.

After speeches beginning tomorrow night at High Point, N. C., Reed will address the University of North Carolina student body and talk in Raleigh, Asheville and Knoxville, Tenn., before turning northward to Wisconsin. Neither Smith nor Walsh will invade the state before the primary Tuesday night.

The Missouri senator speaks in Milwaukee Saturday night, addresses University of Wisconsin students next Sunday and on the day before the primary hopes to visit both Fond Du Lac and Green Bay. From Wisconsin he will go to Des Moines and Omaha, then to Memphis.

After several engagements in the south he will carry his speech-making campaign into Indiana, his native state of Ohio, and West Virginia, where he will be entered in the primaries. He plans to wrap up his tour in New York, April 20.

On a recent trip Reed went to the Pacific coast, speaking in ten southern and western states. He is emphasizing the corruption issue.

## ESCORT OBTAINED FOR SOLO FLIGHT OF ENGLISH LADY

Cape Town, Union of South Africa, March 25.—(P.)—Lady Mary Bailey, who was stopped on a solo flight from England to Capetown, where she reached Egypt, because authorities of the Sudan would not permit her to fly alone over that dangerous territory, has asked permission to resume her flight, according to word received by government sources here.

It is understood that Lady Mary has accepted the escort of Lieutenant R. R. Bentley, of the South African air force, who has just flown over the Sudan as escort to Lady Heath. Lieutenant Bentley is on a home-coming flight to England, but it is understood that his wife will wait for him at Khartoum and that the couple will resume their aerial journey to the mother country after the lieutenant has escorted Lady Bailey southward beyond the danger zone, and has returned to Khartoum.

## FIVE-YEAR-OLD BOY IS SERIOUSLY HURT WHEN HIT BY AUTO

Waycross, Ga., March 25.—(Special.)—Wheaton Aycock, five-year-old son of Mr. and Mrs. George W. Aycock, of Waycross, received a fractured skull when he was struck by an automobile on Brunel street here late yesterday.

The child's condition is reported to be serious, though it was believed today that there is a chance for his recovery.

No charges will be lodged against the driver of the car, it is understood. The child did not see the car, and the driver made every effort to avoid the tragedy, it is stated.

## OLIVER T. BACON, CHATHAM COUNTY OFFICIAL, PASSES

Savannah, Ga., March 25.—(P.)—Oliver Thomas Bacon, chairman of Chatham county commissioners, died in New York today at 12:30 o'clock in St. Luke's hospital, according to advices received by relatives here. Judge Bacon was operated on Friday for intestinal trouble and his improvement up to this morning was thought good. His death has been a shock to the city and county. He was elected a county commissioner in 1909, shortly thereafter became vice chairman of the board, and since 1913 had been its chairman. He was a man of great force and power in the community and was the leading factor in many great improvements here.

## Committee Created To Boost Candidacy Of D. M. Parker

Waycross, Ga., March 25.—An enthusiastic "D. M. Parker for Congress" committee has been organized in Waycross, headed by H. D. Reed, former judge of the Waycross judicial circuit and former district governor of the Kiwanis Clubs of Georgia. Similar committees are to be organized in each of the 20 counties in the eleventh congressional district.

## WAYNE COUNTY LEADER PASSES

Brunswick, Ga., March 25.—(Special.)—J. R. Aiken, one of the best-known men in this section of the state, passed away suddenly this afternoon at Mount Pleasant, Wayne county, which for many years was his home. According to information received here, Mr. Aiken was spending the day with one of his children and suffered a heart attack, dying before medical aid could be summoned.

For years the deceased was identified with the naval stores lumber and banking business of this section, and at one time, when he operated one of the largest saw mills in south Georgia, owned his own railroad. Removing to this city from Mount Pleasant many years ago, he retired from the lumber and naval stores business and became identified with many business concerns here.

Mr. Aiken had often been honored by the people of this county, having served them for two or three terms in the legislature, and later as senator from the fourth district. In 1915 he removed to Miami, where he resided for a year or more, returning to Georgia and dividing his residence between Brunswick, Atlanta and Mount Pleasant.

He is survived by his widow and 12 children. Mrs. P. Harrell of Jacksonville; Mrs. Spencer R. Atkinson, of California; Mrs. Robert Hightower, of Thomas; Mr. Carl Betts, of Rome; Mrs. Robert Blinn, Pasadena, Calif.; and Lawrence, Sherrod Elbert, Courtland; Hugh, Downing and Ted Aiken, who are now scattered over various states. Funeral arrangements have not been completed.

## Davison Plans Return to U. S. By Aerial Route

Panama, March 25.—(P.)—F. Truett Davison, assistant secretary of war for aviation, and Major General James E. Fehet, chief of the United States army air corps, who arrived at France yesterday after flying from Washington, plan to return to the United States by plane. On the return trip they will follow Lindbergh's route over the West Indies.

The two officials lost no time in starting their inspection of military aviation facilities in the canal zone, taking to the air a few hours after their arrival. Secretary Davison said: "You know, you can look at many things from the air that you can't see with your own eyes. We came down here expressly for the purpose of seeing."

Both the secretary and General Fehet agreed that except for the happenings at Minantlan, Mexico, their flight to Panama was a fine trip. They joined in predicting that it will be a question of time before there would be commercial air routes between the United States and the canal. After Secretary Davison had mentioned the accident which put out of commission one of their planes at Minantlan, he added:

"Everything seemed to go wrong at that place. General Fehet and I borrowed a beautiful motorboat from a friend, but we sank it before we could get back to shore. We also experienced the slight earthquake at Minantlan."

## LONE MINER LIVES AFTER EXPLOSION IN MEXICAN SHAFT

Mexico City, March 25.—(P.)—Special dispatches from Tezuitlan to the newspaper Excelsior say that only one miner was found alive of 27 known to have been in the Aurora mine when fire broke out and cut off all means of escape.

The sole survivor was found yesterday several hundred feet below the surface where he had been for 16 days without food and subsisting only on water which he was partly submerged in. At the hospital to which he was carried, physicians expressed the opinion that he would recover, in which case the government will award him a medal.

## AUSTRIA COMMENTS ON TYROL INTERVIEW

Vienna, March 25.—(P.)—Mention was made in most of the church services of Austria today and newspapers commented freely on an interview which the pope is reported to have given recently to Cardinal Piffi and which was brought here by the official Austrian telegraph agency.

In this purported interview his holiness is said to have expressed sorrow at the failure of his efforts to induce the Mussolini government to modify the Italian regime in the Tyrol.

## PORTUGUESE PRESIDENT WINS POST BY DEFAULT

Lisbon, Portugal, March 25.—(P.)—General Antonio Carmona, only candidate for the presidency of the Portuguese republic, was elected to that office today by general suffrage. Voters of Lisbon cast 18,008 ballots for him, but the rest of the country has not been counted.

General Carmona has been acting president since he obtained control of the government by a military coup in 1926.

## To Inoculate Dogs.

Americus, Ga., March 25.—The mayor and council of Americus have under consideration adoption of an ordinance requiring all dogs kept within the city limits of Americus to be inoculated against rabies. The ordinance was prepared by City Attorney Pace, and contains a number of stringent provisions. It is designed, friends of the measure say, to eliminate the peril of rabies in this community.

**PISO'S**  
For Coughs  
Quick Relief! A pleasant, effective syrup—35c and 60c sizes. And use PISO'S Throat and Chest Salve, 35c.

**PILE REMEDY**  
Guarantee  
Every tub with pile ointment and every box of PISO'S OINTMENT is sold by all druggists with the understanding that money will be refunded if it fails to cure any case of itching, bleeding, protruding piles. Why not try it.

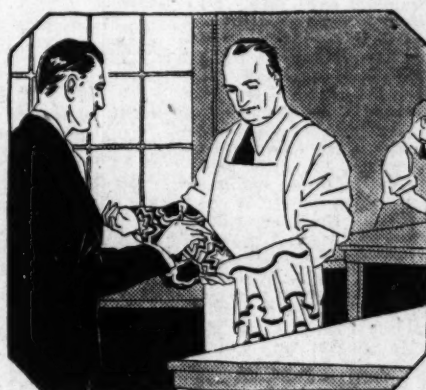

# Your clothes can receive no finer dry cleaning than this:

If our dry cleaning experience, equipment and skill were applied to one garment alone, it would cost you thousands of dollars. But since we devote the same care and facilities to thousands of garments each week, you can get them at a price anyone can afford to pay.

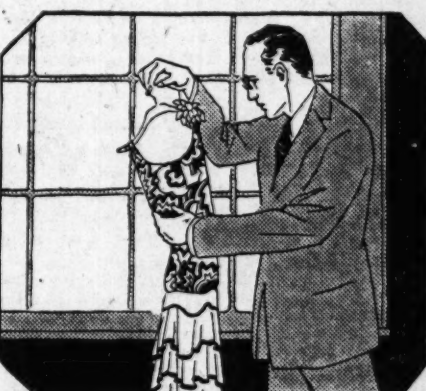

**THE** dry cleaning work you secure from these laundries is a **COMPLETE SERVICE.** It begins the minute you phone us and extends intelligent, interested cooperation to you by many careful details, till the garments are returned promptly at your front doorstep—beautifully renewed.

First a courteous, intelligent routeman calls in response to your phone message. Often you will find it helpful to discuss with him the way you want the article handled. He is glad to receive your special instructions, and personally repeat them to the expert who handles your work.

Your garment is examined at the plant, separate from all others, to decide the best scientific method of dry cleaning that fabric. Your routeman personally delivers any message or caution from you about handling it. Then a skillful artisan goes to work with the equipment and method prescribed.

After the first cleaning your garment goes under inspection for any spots or stains that may have escaped the first treatment. Upon passing this test it is reinspected by a rigid supervisor, who notices every detail.

Promptly the original routeman brings back your garment—now fresh and immaculate, daintily packed with tissue, and covered to keep out the dust.

Plain Dresses—\$1.00  
Ladies' Plain Coats—\$1.00  
Men's Suits and Overcoats—\$1.00

All dye work receives the same expert, individual attention. Last year's frock can be dyed to harmonize with your latest color scheme.

## A NATION'S OBSTINACY.

The Russian proposal for the immediate and complete disarmament of all nations is preposterous on its face.

The definite objection registered by Delegate Gibson at Geneva, is which this government joined all of the great powers, will meet the approval of the American people generally, including the most ultra peace elements.

The universal peace program, based on proposed treaties of arbitration, as submitted by Secretary Kellogg through Mr. Gibson, is eminently correct in principle.

It is precisely the peace program of the late President Wilson except that Mr. Wilson proposed that this result should be accomplished through a league of nations that should also have the machinery for dealing with all great humanitarian problems involving all nations.

This is illustrated by the good work of the league in treaties preventing international traffic in narcotics, also in the betterment of international health conditions by the prevention of traffic in germ-infested articles of commerce, etc.

Even the senate group of irreconcilables, and the republican party leaders of 1920 who capitalized for political purposes the natural unrest following the war, should be able to appraise the original Wilson peace plan as broader, more comprehensive, more workable, and more universally effective.

It is not difficult to understand the indifference of other nations to the present Kellogg proposal, though good as far as it goes, in view of the attitude of this government since the war.

Here it is we find this country, this very day, at the seat of the government of the league of nations, pleading for arbitration treaties, to be negotiated under the auspices of the league, with a record of unrelenting enmity to the league, and a consistent refusal to join it, even with acceptable reservations, or to join a court of universal justice.

This inconsistency of the existing situation is so flagrant that it is ludicrous.

And though every heart in America beats for an everlasting peace, and prays for it, the almost ten-year delay in taking even the present advanced step will very probably seal its fate in so far as this country is concerned.

The world is begging for the outlawry of war for all time to come.

It is begging for such international compacts as shall assure automatic disarmaments to the extent of putting a stop to open invitations to war.

Complete disarmaments would be wholly inadvisable, of course, as opening the doors to civil strife.

The point is, why does this nation, in view of its present very commendable and greatly broadened peace attitude, and its recognition of the good auspices of the league of nations, join the league, and be in position to take a seat at the first table, to enter the council chamber, and to participate in the good work for world betterment?

It can provide such reservations as may be deemed wise to prevent any possible entanglements in European politics.

The situation as it is is quixotic. It is comparable to one with a great and good purpose but without the courage or the backbone to put it into effect.

If political prejudices could be subordinated it would join the league, and lose no time in doing so.

Following events at Washington it takes a lot of nerve for civilized

folks to smile because savages barter pearls for alarm clocks and pocket mirrors.

## FERRIS AN EDUCATOR.

It is seldom that an educator goes into political life, or makes a success in the attempt. Senator Woodbridge N. Ferris, of Michigan, was a notable exception.

Until 1913, when he was elected governor he had spent his life as a college professor.

In 1884 he founded Ferris institute at Big Rapids, and remained at the head of that institution until his death in Washington Friday.

During his last years, while governor and then United States senator, that relationship, of course, was only nominal.

In the entire membership of congress there is perhaps not one to-day who entered political service on a national scale from the school room.

There is no good reason why a master of pedagogy should not become a master in public official service. But the call of professional education is so appealing that few among the educators leave that service for public life.

Senator Ferris, a democrat, was one of the best men in the senate. He did not talk often but when he spoke his words were sound and thoughtful. He was naturally a deep thinker, and his training made him a man of great loyalty. He did not know what is commonly known "the technique of the political game." He knew his convictions, and he had the courage to express and vote them.

He was extremely popular with his colleagues of both parties.

Senator Ferris' seat will be filled by a republican, as Governor Green of Michigan is of that party.

The fact, however, that Senator Ferris, as late as 1923, defeated as strong a republican figure as Charles E. Townsend by a sizeable majority emphasizes the further fact that Michigan is a pivotal state, and a strong democratic candidate for president, if the Houston convention does not muddy the waters, has an excellent chance of carrying that state this year.

## LOWER RATES FAVORED.

It will be gratifying to the country, helpful to business and of greater financial benefit to the government if the postal rates of 1921 are restored, as has been favorably reported to the house by the post-office committee.

The question has been under consideration for several months and not only the publishing interests but large business and industrial interests have urged this restoration at various committee hearings.

Provision is very wisely made in the reported bill for the return of the one-cent postcards. Changes recommended in third-class matter include a rate of 16 cents for each two ounces or fraction thereof up to and including eight ounces in weight with a few stated exceptions.

A favorable report has also been given on the Kelly bill to declare the future policy of the postoffice department in favor of the determination of postage rates on the basis of the cost of the service given, exclusive of all free services and public welfare projects.

The postoffice department has found that increased rates have not increased revenues. The increase in revenues have been the result of the expansion in business. They would be heavier with normal rates.

The bill as reported should be enacted. It would remove a serious shackle from business and be of great economic advantage to the whole people.

Those folks who live at Detroit, Mich., and in a bad way from being snowbound, can sympathize with those of us who live on detours and are mud-bound.

Ganned heat is to be banned in Macon and other places, but we go right ahead and elect congressmen and legislators.

The soviet disarmament plan doesn't find favor at the Geneva parley, as Russia has tried everything else and made a fizzle of it.

Since Florida began to keep its head level it has attained an economic balance. It has had its most prosperous tourist season for years.

Hereafter we shall have more respect for Mr. Ground Hog and what he stands for.

After all the idle talk, we learn that there are fewer idle men now than normally.

Most of the athletes who started on the run from coast to coast are on their last legs.

The G. O. P. is in favor of blue sky laws—at least they wish that the lid had been kept down.

The sort of farm relief the tiller of the soil is praying for right now is a little less activity by Jup. Pluv.

A red-clay road costs \$3,000 a mile and \$10 a trip.

## THE WORLD'S WINDOW

BY PIERRE VAN PAASSEN

## "The Armored Train."

Whatever the opinion may be on the Russian revolution and its political consequences, there can be no doubt that it has given rise to a new generation of writers, whose art continues in the great traditions of the last century: Gogol, Tolstoi, Dostoevsky. And yet the new American "Train" is a new translation of its own, original thought and a new form. It reveals unknown aspects of contemporary Russia. The "Armored Train" is a new translation of its own, original thought and a new form. It reveals unknown aspects of contemporary Russia.

Bands of revolted moujiks intend to attack an armored train of the whites. It has been bombarding their villages and killing a lot of the young men. The moujiks are a pathetic attempt to think up some piece of strategy to make the train come to a stop. This might seem almost incredible as one considers the easy means, such as tearing up a railway bridge, which lie at hand. But the moujiks reject such procedure.

"We built the bridges and the track," they say: "if you blow them up, who shall have to restore them? We ourselves, of course." So they decide that one of the must of himself and lie on the tracks as the white train comes thundering along. "The regulations say," so argue the moujiks, "if a train runs over a man it must stop and bury him."

After that it's only a matter of time before the whites in the train are exterminated. We may doubt the literal conveyances as contained in some of the queer and mystifying stories of the distant ages before Christ.

## A Pleasant

Healer.

Eighteen centuries of Christianity, of cathedrals, crusades and auto-da-fes have not sufficed to stamp out belief in werewolves, evil spirits and poltergeists in the rural districts of Europe.

On certain days of the year young girls in Brittany still go out to garland themselves with flowers and spend a few hours beneath the branches of sacred trees, a relic from Druidical times and a practice of which Joan of Arc was accused during her trial for heresy 500 years ago.

There is an interest in the peasant's life, and the peasants still pay their tribute to the old penates, much in the same spirit as the old lady who reverently dropped her head when the name of Satan was mentioned during divine service and who, when questioned by her pastor, replied: "A lie, but I never see it in the papers."

A court trial in a little Breton village, where a venerable peasant was accused of exercising magic, brought to light that the old man used a formula for the healing of the sick that science has discovered only recently. The healer said he had it from his father, and that it had always been handed down in his family. That is, he had come from the time when our Lord was on earth without undergoing any sensible modifications. The peasant healer should have been sent to jail under the law, of course, but there were such a number of his friends to testify that they had been cured that he was let off with a small fine.

## Rioting Students.

People who have never been to Cairo must be surprised to be always reading how the undergraduates of the university there take a leading share in political riots. It would be difficult to imagine young men from Harvard or Princeton uniting together and making themselves felt physically or politically. In France the students take a very active part in politics and the Quarter Latin has often been the scene of violent demonstrations and even bloodshed. But the truth about Egypt is that the students of the university there have a little attempt either to learn literature or to play games. The place is a hotbed of plotting, so much so that the recent professor of English literature there, Robert Graves, the poet, abandoned his very comfortable post on the grounds that it was merely an anxious sinecure. A further point about the rioters is that some of these students are actually paid to agitate at so many pence an hour. With the money thus earned they go off and buy drugs and start agitating all over again, this time free of charge as the sedition leaders are concerned, says a dispatch to the Daily Mail.

## Sermons to Live By

BY ELAN FRANKLIN DEMPSEY.

Text: "Would God that all the Lord's people were prophets, and that the Lord would put His Spirit upon them." Numbers 11:25.

A well known legend tells how when Jesus returned to heaven after His earthly sojourn, the angel Gabriel asked Him: "What provision have you made for carrying on the work of the earth and for the further proclamation of the good news?"

Jesus replied, "I have told Peter, James and John and the rest to go into all the world and preach the good news to every creature."

Looking at Jesus rather doubtfully, so the legend says, Gabriel further asked Him: "But suppose they should prove unfaithful, what then?"

Jesus replied, "I have no other plan. Of course this is only a legend, but however fanciful it may be, there is very precious truth embodied in it. Alas, there have been generations, even long epochs, in human history when those whom He has told to proclaim the good news have proved unfaithful."

In every such instance the progress of God's kingdom has been delayed, individual souls have suffered while whole nations have either perished or been backward by this unfaithfulness of those whom Jesus has trusted.

God's best gift to a people are the prophets whom He sends to them. A people's deepest woe, therefore, is for those prophets not to preach the preaching which God bids them.

The silent or the perverted prophet preaches the good news he answered; namely, by the preaching of the gospel.

There is no substitute for preaching, and preaching is possible only from one who is sent to preach by the Divine Giver of the good news.

It is perchance the greatest blessing in living a life of unfaithfulness in that having been called to preach the gospel, he is remaining silent, let him

## Just in Passing

BY JAMES A. HOLLOMON.

Just a word about one of the truly great Baptist ministers of Georgia—Dr. Albert Bell Vaughan, now of LaGrange.

It was Sunday two weeks ago at the First Baptist church in that city that a unique birthday celebration was held in honor of this man of God—this friend of men.

Unusual, I would suggest, to hold a birthday party in a church on Sunday, but Dr. Bell's present pastor of the LaGrange church, conceived the idea, and it was perfectly executed.

Friends of Dr. Vaughan gathered from all sections of the state. They paid tribute—just and deserving—to him.

They told of their love for him, and of his love for people and for all of the good and noble things of life.

President Chamblee, of Bessie Tift college, at Forsyth, was there to express words of love.

Paul W. Jones, of Canton, was there to join him, and numbers of others, in testimonies of esteem—of genuine human affection, for this leader of the faith, and gifted messenger of the gospel.

After all, the foundation upon which must rest the only happiness and comfort in this world is faith in God, and in the inspired Word of God.

We may differ—and do—as to certain interpretations of the Bible. We may have our controversies, of a friendly nature, as to the meaning of some of the parables of the Old Testament.

We may doubt the literal conveyances as contained in some of the queer and mystifying stories of the distant ages before Christ.

We may have our differences as to the origin of the human race.

We may have our differences of opinion as to the conception of Jesus Christ.

But it is difficult to understand how anyone can doubt the divinity of the Son of God.

In Dr. Vaughan's long and useful life, aside from his outstanding ability as a pulpit orator, there stands forth his unyielding faith in the Bible as the inspired Word of God.

And this has become so marked, so known of men, that he has become generally recognized as a preacher's preacher, an exponent of the irresistible logic of the Word's free passage.

Dr. Vaughan was born in Pike county on March 3, 1857.

As a boy, therefore, he witnessed the conflict between the states.

His father was impoverished by that war, and the son became a painter's apprentice in another state.

He later returned to Georgia, and after brief schooling tried to enter Mercer.

He was not prepared to become

## Health Talks

BY DR. WILLIAM BRADY.

## AN OUTLINE OF HYGIENE.

It used to worry me some that I had such a poor gift of reading physiology. It seemed that nearly every one else could instantly detect some mental deficiency in a face that to me expressed a high order of intelligence. Or perhaps I misinterpreted as beauty what was in fact ugliness.

Thus I lost confidence in my own physiognomic ability. But when I came to study the physiology of the mind I recovered some degree of confidence in my ability to read in this language. Not that I now believe I can interpret more than you can, but just that I have learned I had been deceived by my friends—I know now that they can't read faces any better than I can, if as well. It is unjust and silly to imagine an individual's character is indicated by his facial features or expression, and it is just as amateurish and misleading to estimate mental characteristics or intelligence by physiognomy. Long ago the irregularities of feature called "stigmata of degeneracy" by Lombroso and his followers lost any such significance in real psychology or psychiatry. So many of the best of us look like the devil, and so many thoroughly bad eggs have all the appearance of nobility.

Intoxication or drunkenness, bearing on the question of responsibility, seems to be as vague and distasteful as insanity in the administration of law. The courts and lawyers are inclined to pass the buck to the doctors. The doctors cannot devise a satisfactory test of drunkenness, and so our great system of American jurisprudence provides another means of escape for offenders who have the price to purchase the necessary legal counsel.

A friend with whom I ride sometimes has a habit of exclaiming, whenever he sees careless or reckless driving, "That fellow must be drunk or crazy!" Maybe he is one or the other, but in the present state of our legal system it is difficult to prove it. In the case of intoxication or drunkenness, the law permits the most convenient distinction between a sane and a madman, and that is, if he is drunk, he is liable for legal quibbling about the facts and knowledge that his act was wrong.

In all reason, when a man takes a drink of any alcoholic beverage he is under a moral obligation to refrain from driving a motor car. That's what he drinks for. If he commits some wrong act while he is under the effect of the alcohol, without any question of intoxication, he ought to be held strictly responsible. When a man drinks he should accept full responsibility for his conduct.

It is a sad and serious business to search for a test of drunkenness. No man can define precisely when "intoxication" merges into "intoxication." It is necessary, a matter of personal opinion. In a sense, justice is a matter of opinion. It ought to be held strictly responsible. When a man drinks he should accept full responsibility for his conduct.

## The Oil Orgy and Its Possible Effects Upon Republicans and Their Party.

By SAM W. SMALL.

It can be set down right now that Albert B. Fall is never going to "tell all" about the oil lease rascalities between himself, Doherty and Sinclair.

His offer to do so is a bluff. Instead of the senate investigators to too plain a bluff to deceive any one with an

## HUSBAND OF DAY NAMED AS BANDIT

Newport, Tenn., March 25.—(AP)—Within a few hours after being married in a hospital here today, a man whom physicians said was "gravely ill," was identified as a member of a trio robbing a North Carolina bank and an escaped convict from the North Carolina penitentiary.

Wash. Turner, alias R. C. Cline, of Marion, N. C., and Miss Essie McDonald, also of North Carolina, were under going treatment for bullet wounds, were married at the North-Carolina infirmary by the Rev. A. L. Crawley, pastor of the First Baptist church, and a short time later, Sheriff J. S. Braswell, of Norman, N. C., identified the man as one of a trio who robbed a bank at Norman February 21.

Turner and his bride and W. E. Davis, alias W. E. Price and his wife were wounded here Wednesday night during a pistol battle with Chief of Police W. L. Bell who also was wounded as was Alex Buda, a bystander. Davis also was identified by the sheriff as implicated in the Norman bank robbery.

Turner, physicians said today, was gravely ill with traumatic pneumonia as a result of exposure following his battle with Bell in which he was shot seven times. Sheriff Braswell said Turner was an escaped convict from the North Carolina penitentiary at Raleigh, where he was serving a term for bank robbery.

**Bride Loses Eye.**  
Turner's bride, according to physicians at the infirmary, probably will be blind in her left eye as a result of her wound.

Both Davis and his wife, physicians said, will recover. They also said that Bell and Buda were improving rapidly. Bell was shot through the hip and Buda through the left lung.

The battle was precipitated when Davis alias Price and Turner alias Cline, stopped at a cafe operated by Buda and were accosted by Bell who was on the lookout for them. Bell grabbed Davis by the arm to take him from the car, Turner, who was seated, then opened fire, and using Davis as a shield he returned it.

**Takes Women Along.**  
The women in the meantime, were on the outside side of the street. When Bell's pistol had been emptied, he withdrew to reload and Turner took the women with him. A short distance from the town, the women suffering from their wounds were put out of the car and hailed a ride back to town. Turner disappeared and 24 hours later was reported to have been shot.

**Entombed 16 Days.**  
Mexico City, March 25.—(United News).—Entombed without food or water for sixteen days in the Aurora silver mine at Tezuitlan, Jose Ricardo, a miner, was rescued and is reported to be recovering rapidly.

**Champion Mother.**  
Saint Etienne, France, March 25.—(United News).—Mme. Jacqueline Noire, 22, is claimed here to be the world's champion mother. In her three years of married life she has given birth to two sets of triplets.

## EVANGELIST MORRISON DRAWS BIG CROWDS

Despite intermittent showers, hundreds crowded the three revival services held Sunday at St. Paul Methodist church, and it was announced that all pastors of the south Atlantic district, Methodist Episcopal church, south, will attend the service at 10 o'clock this morning and will hear the Rev. Dr. H. C. Morrison, famous evangelist, speak on "The Price of a Revival."

DR. JOHN S. JENKINS.

Atlanta district, Methodist Episcopal church, south, will attend the service at 10 o'clock this morning and will hear the Rev. Dr. H. C. Morrison, famous evangelist, speak on "The Price of a Revival."

Following the preaching service, the pastors will hold a conference, the Rev. Dr. John S. Jenkins, presiding elder of the district, announced.

Dr. Morrison has attracted city-wide interest at the series of services he has conducted at St. Paul church for the past week, and if Sunday night is taken as a barometer, the auditorium will be inadequate to seat the crowds who will seek admittance during the week. He will end the two weeks' series of meetings next Sunday night.

Two services are being held daily, one at 10 o'clock in the morning and another at 7:30 o'clock at night. No. H. Timms, prominent Atlanta business man, is directing attractive musical programs in conjunction with the meetings.

A feature of the Sunday services was a special address delivered to men only at 7 o'clock Sunday afternoon, in which the speaker landed the Christ "as a Man to be patterned after and a Savior to be sought." The large auditorium was packed and many accepted the invitation to "desert your wicked path and accept Christ as your personal Savior."

The first air mail plane of the New York-Philadelphia-Atlanta air mail route to be operated by the Pictorial Aviation company arrived late Saturday afternoon at Candler field. The plane is a single seater, with the inscription "P. Air Mail" on the side. It was said at Candler field to have a cruising speed of 135 miles per hour.

Although the Pictorial company has several planes in Candler field hangars, this was the first air mail plane to be seen here.

**GOTHAM ACCEPTS  
SPRING'S ARRIVAL  
AS PROVEN FACT**

New York, March 25.—(United News).—After several previous attempts which failed, spring finally succeeded today in convincing the population of the eastern seaboard it had arrived.

The mercury touched 69 in New York city in mid-afternoon and the metropolis had a chance to do its new spring finery and go out for a excursion, depending upon the inclination.

Motor traffic in the metropolitan district was almost as heavy as in midsummer and was estimated that approximately 100,000 people spent the day at Coney island.

**Capital Is Balm.**  
Washington, March 25.—(United News).—The second successive day of spring-like weather brought a high temperature of 82 degrees to the capital today, two degrees under the high mark set Saturday.

The famous Japanese cherry blossoms arounds Potomac park; one of the show spots of the city in spring, are about to burst into bloom.

Crowds sought the parks and the zoo today and the Potomac river was dotted with canoes, with a few bathing suits to be seen.

**FACTORY EXPORTS  
SHOW ENORMOUS  
JUMP IN DECADE**

Washington, March 25.—(AP)—American exports of manufactured goods were declared today by Dr. Julius Klein, chief of the commerce department's foreign service, to be the "prosperity balance" of the nation's economic structure.

A study just completed for Dr. Klein shows that 1927 exports of manufactured goods from the United States had a value of \$2,000,000,000, or 2 1/2 times the comparable total of 1914 and six times the total of 1900.

Attainment of this total was treated by Dr. Klein as a credit to American salesmanship and production talent, especially as it has been reached in the face of every-increasing foreign competition. The steady export of about 8 per cent of American manufactures is anticipated in future years, though in many individual manufacturing lines a larger proportion of the total output goes abroad.

**AMERICUS WATER  
RATES FACE BOOST**

Americus, Ga., March 25.—Effective April 1, the maximum water consumption permitted consumers here under the minimum quarterly rate of \$3 will be reduced from 12,000 gallons as at present, to 10,000 gallons. The effect of the change will be to increase water rents decisively in all instances where consumers have heretofore been using the permitted maximum. The usual charge for excess water heretofore made will continue under the new schedule. About two years ago the minimum quarterly water rent here was increased from \$2.55 to \$3, but under the new schedule this minimum will not be disturbed, remaining as at present.

**Leases Ice Plant.**  
Arlington, Ga., March 25.—M. D. Goodrich, of Sylvester, has leased the local ice and cold storage plant and business from the Baker County Power company, and is now in charge of operation. Mr. Goodrich owns and operates a similar plant at Sylvester and is president of a concern that is building a large ice plant to be put in operation in Albany this summer.

## ATLANTA AIR MAIL TESTS START SOON

Philadelphia, Pa., March 25.—(Special).—Announcement was made here today that test flying over the New York, Philadelphia and Atlanta air mail route will start on April 2.

Operation of the route will begin early in May, but a definite date cannot be set until all between lights and emergency fields are prepared.

The department of commerce, which lays out the airways of the country and provides emergency fields and beacon lights, expected that the new airway would be ready for operation last fall, but many serious difficulties were encountered in providing fields and power for the route.

Officials of the department today notified Pictorial Aviation, located in this city, which company will operate the mail route, that the work is now practically complete, so that the plane will be made to begin test flying next week. Night test flying will begin about the middle of April, when all lights are complete and in operation.

A full month of test flying is considered necessary by officials, because the entire route will be flown at night. Every object on the ground will be hidden in darkness and only occasional light from scattered farmhouses, and the beacons will guide the fliers.

If a pilot is carried off his course in stormy weather, he must either be able to get his bearings from what lights he sees, or release a parachute flare to light the ground below. A detailed knowledge of every part of the route would be necessary for a pilot to determine his location from the few landmarks thus made visible.

In order to gain this knowledge, mail pilots will make daily flights over their section of the route, weather permitting, in the daytime, flying not only directly along the route, but to one side and the other so that they will be familiar with every landmark within 50 miles of the route, a band of territory 100 miles wide and more than 750 miles long.

In the test flying pilots will use planes designed especially for flying night air mail. These planes have no passenger seats, but are provided instead with a large fireproof and rust-proof mail compartment, in which 250 pounds of mail can be carried. The cruising speed of the planes is a little over 100 miles an hour, and the high speed is over 130 miles an hour.

Definite schedules for the operation of the air mail have not yet been adopted. Under tentative plans, however, planes will leave both Atlanta and New York in the evening and arrive at New York and Atlanta, respectively, in the early morning, a run of about nine hours.

Planes and pilots will be changed at Richmond. Other stops will be Philadelphia, Washington, Greensboro and Spartanburg.

The first air mail plane of the New York-Philadelphia-Atlanta air mail route to be operated by the Pictorial Aviation company arrived late Saturday afternoon at Candler field. The plane is a single seater, with the inscription "P. Air Mail" on the side. It was said at Candler field to have a cruising speed of 135 miles per hour.

Although the Pictorial company has several planes in Candler field hangars, this was the first air mail plane to be seen here.

## M'BRIDE PICTURES WHITE HOOSE WET

Pittsburgh, March 25.—(AP)—Prohibition sentiment must be mobilized effectively so that "enlightened citizens will place in positions of authority, from president to mayor, only men who will stand by the constitution and the necessary laws for its enforcement," Dr. F. Scott McBride, general superintendent of the Anti-Saloon league, declared in an address at the Emory Methodist Episcopal church here today.

"The next president will probably appoint a majority of the members of the supreme court who pass upon the constitutionality of all prohibition legislation," said McBride. "He also chooses the secretary of the treasury, who, with subordinate officers, is responsible for enforcement of prohibition; he names the attorney general, who has charge of the prosecution of the liquor criminals. He picks the secretary of state, who must settle the international problems involved in liquor smuggling. Federal judges and the whole array of other federal officials depend upon the president for appointment."

"Once allow the liquor element to gain control of the white house and the damage it could do to the enforcement of prohibition would be inseparable," the anti-saloon superintendent asserted.

"Half the people of these United States are 25 years of age or under," McBride continued. "Many of these have never known what the old-time liquor traffic meant. We must inform them concerning the perils inherent in that traffic."

**JONES BILL GOES  
TO SENATE FLOOR**

Washington, March 25.—(AP)—Congress will be in a position this week to tackle its big legislative problems—flood control and farm relief—but politics, at least so far as the senate is concerned, seems destined to receive first consideration.

Two presidential candidates—Herbert Hoover, a republican, and Governor Al Smith, a democrat, have been set up as targets for promised speeches in the senate tomorrow. Senator Neely, a West Virginia democrat, has given notice he will speak on Hoover's answer to Borah's prohibition questionnaire, and Senator Robinson, an Indiana republican, has announced he will have something further to say about Smith's retention of Harry F. Sinclair on the New York racing commission during the Teapot Dome investigation.

Meanwhile, the Jones compromise flood control bill which has been whipped into shape after weeks of discussion so as to meet practically all conflicting views on this legislation, is ready to take its place on the senate floor. Unless Senator Norbeck, republican, South Dakota, is able to get a majority vote on his bill to establish migratory bird reservations, leaders expect to displace it with the flood measure which apparently faces a clear road to passage as a result of its compromise completion.

At the other end of the capitol, the house also expects to receive a revised flood bill. Chairman Reid, of the house flood control committee, who also has been holding conferences, announced that a modified measure has been perfected and will be reported formally some time during the week.

But even with the disposition of the flood control problem, congress still has before it farm relief, Boulder dam, tax reduction, Muscle Shoals and the naval building program—with two-thirds of its prospective session already gone.

While the house has acted on tax reduction and the naval program, and the senate has completed work on Muscle Shoals, neither house has taken up the farm relief and Boulder dam measures on the floor.

In the committee rooms still other legislative problems are fermenting and a host of investigations are being carried forward.

Senate committees during the week will resume inquiries into the Teapot Dome naval oil reserve leases, the bituminous coal strike and the break last fall in the cotton market.

The senate, in addition, has pending the Couzens resolution to have the senate declare in favor of the resignation of Secretary Mellon, based on his apparently having been postponed indefinitely. The resolution has been sidetracked deep on the regular calendar business and while both sides seem ready for an early showdown, Senator Couzens, a Michigan republican, was called away from the capitol this week by the death of his colleague, Senator Ferris, a democrat, while Senator Reed, a Pennsylvania republican, and leader of the opposition to the proposal, likewise is absent from the city.

The house tomorrow with devote its time to consideration of District of Columbia legislation. On Tuesday leaders plan to pass and send to the senate the \$350,000 navy department appropriation bill; devote Wednesday to bills on the calendar, and on Thursday take up the senate resolution to postpone for another year the placing in operation of the national origin clause of the immigration act. As yet, leaders have not determined what legislation will be considered the last two days of the week.

## FLOODS THREATEN CALIFORNIA DAMS

San Francisco, March 25.—(AP)—Northern California rivers and streams murmuring under the heavy duty imposed by recent rains went on a rampage today.

Four rivers—the Truckee, Sacramento, American and the Pajaro—all went out of bounds causing serious damage at widely separated points.

Reno, Nev., reported sections of that city under five feet of muddy water tonight with the Truckee river groaning under the heaviest load it has carried in years.

Slides and washouts along the line of the Southern Pacific railroad were frequent today in the Sierras, crippling train service.

All traffic over the Yolo causeway gained control of the white house and the damage it could do to the enforcement of prohibition would be inseparable," the anti-saloon superintendent asserted.

**JONES BILL GOES

## NEW YORK-PARIS PHONE SERVICE MADE PERMANENT

New York, March 25.—(AP)—Paris, which in 1915 was the first city to hear a voice over the telephone across the Atlantic, will be added on Wednesday to the list of continental cities receiving regular service from the United States and Cuba, the American Telephone and Telegraph company announced today.

It will cost more to talk from New York to Paris than to any other city now in the hookup. A New York-to-Paris call will be \$4.75 for the first three minutes and \$16.25 for each additional minute.

Such a call will go by means of a radio circuit from New York to London, thence by submarine cable under the English channel to Bournemouth, and then by overhead cable to Paris, a total distance of 3,815 miles.

Continuing a series of raids in the East End to find the source of extensive gun-running, Scotland Yard men have seized a big supply of pistols and ammunition said to be for Irish revolutionists.

**JONES BILL GOES

## TROOPS DISPERSE AUSTRIAN RIOTERS

Vienna, March 25.—(AP)—Seven hundred adherents of the Socialist Defense League and the bourgeois home defense force fought for three hours at Feldkirchen, Carinthia, Friday night. Gendarmes were powerless to stop the riot which ended only when regular troops intervened.

Ten men were seriously wounded by bullets and many others were stabbed. Altogether 25 of the combatants were sent to hospitals in serious conditions.

Apart from these casualties, the largest hall in the town was entirely wrecked and the nose of the mayor

of Feldkirchen was broken. Authorities fear that the battle may be resumed at the first favorable opportunity but they are taking steps to prevent reinforcements for either side from going to Feldkirchen. News reports of the fight were suppressed until today.

The conservative newspapers express the hope that the collision will not lead to civil war. Blame for the sanguinary encounter is attributed by the papers to the home defense force which, they say, invaded a socialist meeting and tried to expel out-of-town speakers.

The socialists resisted this attempt and the home defense forces resorted to violence. They extinguished the lights in the hall and fighting immediately was transferred to the streets.

Both sides summoned reinforcements by telephone and the riot grew in volume as the additional factions arrived at the scene. Then the gendarmes tried to stop the fracas.

19 N. Pryor

Remember, everything at from 66 2-3 to 80% Off.

## You could go shopping with your eyes shut

You could turn your back to the counter and yet be perfectly sure of getting the things you want. The exact quality of sheeting, or talcum powder, or candy, or soap, or furniture polish that you like best is handed to you instantly when you ask for it by name.

You don't have to look, because you know that advertised brands will be precisely the same today as they were yesterday. The fact that they are advertised guarantees that their quality will be maintained. Their makers have placed themselves on record.

Advertised products are honest products. It is the unadvertised things—the "just-as-goods" and the "almost-the-sames" that are likely to vary in quality.

You save money and you save time when you make a habit of buying standard goods—as advertised.

Read the advertisements—and know  
what and where to buy

## SMITH IS PERENNIAL PUZZLE TO PARTY

Continued from First Page.

to the voters, but by the state committee. The two states are Louisiana and Arkansas in which there are no popular primaries for the naming of delegates, and not even county conventions.

In Louisiana the delegates have been chosen by the state committee which in that case meant practically by an individual state leader, and at least half the Louisiana delegates are for Smith.

The socialists resisted this attempt and the home defense forces resorted to violence. They extinguished the lights in the hall and fighting immediately was transferred to the streets.

Both sides summoned reinforcements by telephone and the riot grew in volume as the additional factions arrived at the scene. Then the gendarmes tried to stop the fracas.

The dry democratic leaders in Washington are utterly confident that at the convention Smith will get no additional southern states, and that no others will even be in doubt, though they admit that an occasional southern delegate here and there may favor the nomination of Smith. The net judgment of the dry democratic leaders is that there will be more than two hundred dependable anti-Smith delegates from the ten states which compose the uniformly democratic solid south, and that elsewhere there will be enough more to make up a last-ditch anti-Smith group of about 475. Whereas only 387 are needed.

The dry opposition to Smith assigns almost decisive importance to, and also has great confidence in, the three trans-Mississippi states in which they will be popular primaries, in which Smith's name is entered, and in which there will be opportunity for a clear test of strength between Smith and the dry and western states. These three are California on May 18, Oregon on May 18, and South Dakota on May 22. If Smith should carry, or even do strikingly well, in all or even two of these primaries, that fact would undermine the argument that the west stands with the south in widespread opposition to Smith, and would leave the south alone to prevent Smith's nomination, a thing that the south alone cannot do.

**Raise a Question.**  
The incident in Arkansas has raised the question whether Arkansas would go republican if Smith should be nominated, and especially if the Arkansas delegation should seem to support Smith in defiance of what is claimed to be the popular sentiment of the state. Whether any southern state has ever uniformly democratic would go republican at any time, depends almost wholly on whether the republican national organization, as distinct from the local organization, decides to go after the state.

The republican national leaders

have for years followed a policy of picking out some one of the southern states where conditions were most favorable to them, and making an intensive drive to carry it. By that process, the republicans have picked off one by one the liberal states uniformly democratic states of Missouri, Kentucky, Tennessee and Oklahoma. Some of the same republican national leaders claim that Arkansas has been ripe for their picking ever since 1920 at least. In 1920, the democratic candidate, Cox, got 107,408 votes, while the republican, Harding, got 71,117. That is a formidable republican showing to be achieved without any special drive in a state traditionally and uniformly democratic. The democratic majority was 36,291, which means that if a little over eighteen thousand democrats should shift their allegiance, the republicans would win.

The republican national leaders claim that even under normal conditions they could carry Arkansas if they should make in that state the kind of organized effort with which they have been successful in four other southern states. With the nomination of Smith, the carrying of Arkansas by the republicans would be comparatively easy, especially if Hoover, who has been working in the state for him a considerable personal following.

Indeed, one of the fundamental aspects of this whole political rally in the assumption of the republicans that by nominating Hoover they will have a good change to carry through southern states to balance the possible carrying of New York by Smith if the latter should be the democratic nominee.

## ATLANTA BOY FALLS OFF STONE MOUNTAIN

Continued from First Page.

was learned that he was a former student of Bass Junior High school at Atlanta.

The body was taken to Bridges undertaking parlors at Stone Mountain, where Mrs. Lankford, his mother, was notified. Mrs. Lankford was prostrated by news of the tragedy.

Besides his mother, the youth is survived by a brother, Joe Lankford. He was an employee of the construction department of the Chevrolet plant in Atlanta.

One of those witnessing the fall of young Lankford was O. W. Rushin, of 330 Spring street, Atlanta. According to Rushin, he was first attracted to the accident when he heard a general cry go up among motorists that someone was falling.

Rushin said, the desperate efforts of the young man to stop his downward slide toward the rounded-off knob of the precipice could be seen. For the barest moment, he said, the falling lad seemed to have broken his imminent fall and hung, his fingers clutching the rocks.

But the finger-hold, if the ill-fated lad had obtained one, was only momentary, and he plunged over the knob, straight down.

The body of young Lankford later was transferred to the funeral parlors of Harry G. Poole in Atlanta, where it was announced that funeral arrangements had been completed. It is expected that services will be held from the Poole chapel upon completion of all arrangements.

## Radio Record.

Washington, March 25. (United News).—More than 6,000,000 words have been transmitted by army radio stations during the past six months and with only one per cent error, the war department said today.

Dr. Roy S. Copeland, U. S. Senator from New York and Ex-Health Commissioner of New York City is a recognized national authority on public health.

## Dr. Copeland Says:

"Mineral waters of the right sort are preferable to many cathartic compounds. Their power to overcome the immediate effects of constipation is unquestioned, in their effects upon the bowel and its lining membranes they are far less irritating, indeed many have qualities that make them soothing and healing. Sugar-coated pills are pleasant to take, which may add to their danger. They are no less habit-forming and drastic because they appeal to the taste."

Pluto Water, with its mineral content, flushes the bowels and washes away impurities. It is gentle, soothing, healing, non-habit-forming. Corrects constipation and restores normal bowel movements. Acts in 30 minutes to 2 hours.

Sold at all drug counters and at fountains

## ELEPHANT PUZZLE CLOSES THURSDAY

With the closing date for the elephant puzzle contest set for next Thursday, last-minute entrants will do well to sharpen their pencils and get busy at this game of skill, the first award for which will mean \$1,500 to some accurate mathematician.

The contestant who submits the most accurate sum total of the weights of the three elephants will come in for some big money.

If this profitable game has not already caught your attention, look up the following advertisement, giving all particulars, and get in a bid for the big prize money. Thirty separate prizes are offered.

## AMERICUS EDUCATION BOARD IS REELECTED

Americus, Ga., March 25.—Charles H. Burke, Sam R. Hey, Arthur Rylander, Sr., and John Sheffield have just been reelected members of the board of public education of Americus. Each succeeded himself as a member of that body. Election was by city council at the meeting of that body this week, and there was no opposition to any of those proposed. The board of public education has exclusive jurisdiction of the public school system of Americus, including handling certain tax matters specifically levied for educational purposes by municipal authorities.

## FIASCO AT GENEVA ALIENATES RUSSIA

Continued from First Page.

preparation of a program for the prospective disarmament conference. This commission will meet again at the call of the president only when he is satisfied that the governments have settled their differences on naval disarmament.

**Russia Keeps Busy.**  
On the score of something achieved, the League of Nations has succeeded in winning Spain back into its fold. Brazil, also invited to return, did not accept the invitation, but promised to cooperate fully in the work of the league.

Russia has other affairs of importance to consider during the course of the week—with Great Britain and Germany, respectively, over the almost forgotten Zinovieff letter and the arrest of German engineers in the Don region, and the consequent breaking off of the Russo-German trade negotiations.

Ramsay MacDonald, labor leader in the house of commons, upbraided the government for its alleged failure to trace the source and prove the authenticity of the letter, which, it is recalled, was a potent factor in the downfall of the government—the first labor government, in 1924, when a conservative landslide buried both laborites and liberals.

The British house of commons refused to accede to the laborite's demands for a new inquiry into the Zinovieff letter, and at Moscow M. Tscheterin, commissar for foreign affairs, again renewed his denunciation of the letter, describing Premier Baldwin's statement concerning it as a "pure fabrication."

**Youths Join Mussolini.**  
The Russian incident was not disposed of, and Germany still is seeking an explanation of the reasons for the arrest of her nationals, one of whom has been released and has recounted tales of insanitary conditions in the prison where he was confined.

"In guard" is the watchword sent out by Premier Mussolini to Black Shirts throughout the country. In an "order" issued on the occasion of the graduation of 80,000 youths, known as "Avanguardisti" from their own organization into the fascist party proper, Mussolini, in his characteristic way, welcomed them into the political and military ranks, and admonished all Black Shirts to receive "the rising waves of youth who join themselves vast to the other waves"—the "millions of men constituting the armed defense of the fascist revolution."

There came a halt in the Tangier zone settlement between France and Spain, on which a tentative agreement had been reached. Divergences arose between the Italian and French viewpoints in the four-power conference held at Paris, which also included Great Britain and Spain. Before a complete settlement is assured, it is necessary to have the ratification of both Italy and Great Britain. The United States government is interested, as it insists upon the open door in Tangier, as in China and other parts of the world where American interests are active.

**South America Erupts.**  
Latin America—the countries south of the Rio Grande—figured prominently in the news during the past week. Argentina has the election of a president to succeed Don Marcelo Alvear on her hands. The campaign, in which Hipolito Yrigoyen, former president, is prominent, has been bitter and turbulent. In the midst of it Dr. Manuel Mallbran was appointed Argentine ambassador to the United States, replacing Honorio Pueyrredon, who resigned when a delegate to the Pan-American conference at Havana.

Colombia and Peru wrote finis to another dispute which has kept these two countries in continuous agitation, when they ratified the boundary treaty of 1922, whereby Colombia cedes to Peru the greater portion of the territory known as the commission of Putumayo, which largely reduces the Colombian-Ecuadorian frontier.

**Mexico in Limelight.**  
Nicaragua, for the first time in its history, has an American war veteran, Brigadier General McCoy, as head of the electoral commission to supervise the presidential elections next October. President Diaz was obliged to issue a decree establishing this supervision owing to the refusal of the Nicaraguan congress to approve his electoral bill to this end. Preparations for the elections are going on apace, and United States marines will be there to insure order and a free vote. Other marines with the Nicaraguan guards were reported to be closing in slowly but surely on the rebellious forces under General Sanguino.

Mexico was heard from through several quarters. Old insurgents and earthquakes combined to put the news from that country in a prominent position. Ambassador Morrow and Luis Morones, secretary of industry and commerce, in charge of the petroleum situation, conferred, with the object of bringing about a settlement of the long-standing controversy between the United States and Mexico, which has been greatly eased of late by court decisions in favor of American oil companies.

The American embassy did not fare so well in rumblings of Mother Earth when far-reaching tremors shook a large part of Mexico, killing several persons, wrecking many houses and cracking one of the walls in the embassy, but doing little other damage in Mexico City.

## SAUL HEADS LOCAL PALESTINE APPEAL

Appointment of J. Saul, prominent merchant of Atlanta and Georgia, and a leader of the local Jewish community, to head the annual United Palestine appeal as chairman of the Atlanta district was made Sunday night following the address of Itamar Ben Avi, noted Palestinian editor, at the Atlanta Jewish Women's club.

At the same time a quota of \$20,000 was accepted as the sum to be raised by the Jews of this community during the two weeks of the campaign, as their share in providing the \$750,000 to be contributed this year by American Jewry for completing the development of Palestine as the modern Jewish home.

Comparing the present Palestinian nation to the original 13 colonies of America, Mr. Ben Avi, the principal speaker of the evening, predicted that the future would witness the growth of modern Jewry to proportions far greater than that now dreamed of by the most ardent Zionists, just as the 13 original colonies expanded to a size never thought of by the patriotic fathers of this nation.

"The progress that has been made in Palestine since the world war and its recognition by the nations of the world as a home for the Jews has been nothing short of miraculous," the fearless editor from Jerusalem stated. "Like any other embryo undertaking, it is condemned when the least unfavorable circumstance arises, but the advancement the small nation makes against the great handicaps is overlooked."

While the celebrated orator and Palestinian statesman addressed the large groups of Atlanta Jewry that gathered to pay homage to him despite the heavy rainfall and lightning storm, the lights of the auditorium were temporarily put out due to the storm, the keen mind of Ben Avi seized upon the incident to illustrate one difficulty the builders of Palestine are working. "When the electrification of Jaffa was completed as the first accomplishment of the Jewish electric concession, and through some uncontrollable accident, such as you now witness in this great city of yours, the lights failed temporarily, leaving the city in darkness, the people of Jaffa cursed the whole undertaking. Yet you would not here think of cursing the wonderful development that brings lights to your home for what is now happening."

The meeting was presided over by I. M. Wengrow, Atlanta attorney recently elected president of the Zionist district, while Dr. Leo J. Frachtenberg, southern regional director of the U. P. A., announced the opening of the campaign plan and adoption of the motto, "If You Won't, Who Will?"

## LINDBERGH'S FRIENDS DENY HE WILL RETIRE

Continued from First Page.

remains at a distance, but people would avoid him and his plane, until there is danger for both.

Sometimes, Lindbergh is the victim of well-meant but boisterous handling. Then he loses his temper. During his recent "good will" flight to Central America, an incident of this nature occurred in Costa Rica. Lindbergh, himself, is responsible for the incident.

He stepped from his plane and the Costa Rican crowd, as did crowds in all other countries, started to swarm around him and began to walk away. A high-ranking Costa Rican official rushed up from behind to embrace him. As he reached his arms to grasp Lindbergh around the neck he tripped and instead of embracing him, he gave the "good will" flyer a stiff punch on the ear.

Lindbergh wheeled quickly, saw the man still staggering toward him, and let loose a quick right jab to the jaw. Apologies were made later all around.

Monday, Lindbergh will resume flying after a short trip over the capital. In the last five days, he has made 80 trips with approximately 850 passengers. On several days he was forced to land two planes in rows, to accommodate all officials and members of their families who wished to fly with him.

His future passenger flights, however, will be confined to members of congress and diplomats, Secretary MacCracken, who has been managing the congressional trips, said.

## CHICAGO RAIDS START ON EVE OF FUNERAL

Continued from First Page.

proaching primary by Joseph Savare, a Thompson-Crowe-Smith candidate.

The Illinois campaign has been bitter throughout the state with the allied Deeney and Frank O. Lowden republican forces engaging in verbal blasts with the faction controlled by Mayor William Hale Thompson, State's Attorney Robert E. Crowe and Governor Len Small.

On in Chicago, however, has politics been blamed for using methods of violence. The attorney general's investigation will lead from the underworld to the doors of the city hall, if earlier announcements are carried out.

**Throng to Attend.**  
The entire city and state was shocked at the killing of "Diamond Joe" rise from a poor immigrant to a man of wealth and prominence. His activities in political campaigns brought him into contact with the state's political leaders. His death will have an effect on the large Italian vote that he controlled.

The effect will be watched closely at St. Callista's church, which had been selected first. Senator Deeney was expected here to attend the rites.

Florians (throughout the city) said a heavy demand on their supplies was being made, indicating that "Little Italy" was preparing another tribute such as marked the elaborate funerals of other leaders.

Esposito's casket, which cost \$5,000, has reposed in a veritable flower garden at his home.

## Costly Sneeze.

Washington, March 25. (United News).—Sneezes cost money. The "common cold" caused a loss of several million dollars last year, considered on the basis of lost time, according to the bureau of the labor department.

## ADMIRAL JONES IS TOO LATE FOR GENEVA PARLEY

Geneva, March 25.—(AP)—Rear Admiral Hilary P. Jones, U. S. N., retired, who was to have been a member of the American delegation at the preparatory arms conference, arrived here after the close of the session.

His delayed appearance gave rise to the idea that there would be, perhaps, disarmament "conversations" among the American, British and

Japanese naval experts. According to information from American representatives, however, this theory is erroneous. It is said that nothing will be done respecting naval disarmament among those powers until 1937, when signatories to the Washington treaties are to meet to discuss revision of that pact. On the other hand it is said that American and Italian experts may talk about the disarmament question.

The British delegation to the preparatory commission returned to London today. Other delegations will depart tomorrow and Tuesday.

IVY SAWYER, star, and JOSEPH SANTLEY, producer, of "Just Fancy," graciously respond to a prolonged curtain call. Their smiles, Peppodent keeps gleaming white.

## A Glorious Surprise

If you think teeth naturally "off color" just remove the dingy film—then they gleam and glisten. 10-day tube free.

WINNING smiles are not wholly a matter of luck. Or dazzling white teeth are possessed only by the few. Both come from a new way of cleansing teeth that brings results which will amaze you.

With correct care you can give teeth dazzling whiteness, and your gums the healthy coral tint you envy.

Run your tongue across your teeth, and you will feel a film, a viscous coat that covers them.

That film is an enemy to your teeth—and your gums. You must remove it.

It clings to teeth, gets into crevices and stays. It absorbs discolorations and gives your teeth that "off-color" look.

Germ by the millions breed in it and lay your teeth open to decay. And they, with tartar, are the chief cause of pyorrhea and gum disorders.

Ordinary brushing fails in successfully combating film.

## Peppodent

The New Day Quality Dentifrice

Endorsed by World's Dental Authorities

That's why, regardless of care, teeth remain dull, unattractive.

Now, in a new-type dentifrice called Peppodent, dental science has provided effective combatants. Their action is to curdle the film and remove it. Peppodent also firms the gums.

Thus the world has turned, largely on dental advice, to this new method.

What you see when that film is removed—the whiteness of your teeth—will amaze you.

Mail the coupon. A ten-day tube will be sent you free.

# South Atlantic Net Thourney Starts Today at Augusta

## Strong Field Enters Annual Tennis Meet

Three Atlanta Boys Among Select List Seeking Laurels at Augusta.

BY WHITNER CARY.  
Constitution Staff Correspondent.  
Bon Air-Vanderbilt Hotel, March 25.—With an entry list of 55 players including some of the leading racket wielders of this country, the annual South Atlantic tennis championship gets under way tomorrow morning on the clay courts of the Augusta Country club.

George Lott, number three ranking player of this country, heads the list of eight seed players. John Doe, number eight in the national ranking, is placed second; Frank Shields, national junior champion, is put at third place, while Taimo Abe, the Japanese player, is fourth. Others in the order of seeding are Lawrence Rice, of Boston; Allen Behr, of New York; Bryan Grant, of Atlanta and Jack Mooney, of the same city. Bryan Grant, of Atlanta, present southern champion, is drawn in the upper half as is his fellow townsman Jack Simpson. Bryan is drawn against Tom Harrett, of Augusta, in the first round. Simpson plays De William Rosenbaum, of New York. Jack Mooney and Malon Courts, of the Gate City, occupy places in the lower half. Courts will oppose A. D. Tobin, of this city, and Mooney will battle Ernest Weyman, of Charleston.

## TILDEN IS EXTENDED TO BEAT YOUNG COEN.

BY HORACE C. KENEGAR.  
Augusta, Ga., March 25.—(P)—America's Davis cup training squad today completed practice and prepared to depart immediately for Mexico City to meet the Mexican team in the first round of American zone play which is expected to lead to a challenge by the team led by William Tilden II, making a renewed effort to recapture the trophy now held by France.

In final practice games today, Tilden won from W. E. Coen, Jr., of Kansas City, who is being carried on the squad to Mexico. The match went five sets, the veteran finally winning out, 6-2, 6-3, 6-4, 7-9, 6-4.

Even Terms.  
Coen, during the final sets, played big Bill on even terms, often outmaneuvering the former Davis champion. Tilden is suffering from a slightly sprained arm.

In the other two singles matches of the day, Johnny Hennessey, of Indianapolis, featured in both. He defeated Frank Shields, of New York, in straight sets, 6-2, 6-1, 6-2, and then turned around and duplicated his easy victory in winning the Taimo Abe, Japanese national champion, 6-1, 6-4.

The Davis cup squad, comprising Tilden, Hennessey, Arthur Jones, of Providence, R. I., and Wilmer Allison, University of Texas, accompanied by Coen, who is being carried along for the experience to be gained, was to depart at 1:10 a. m. tomorrow via Atlanta, Memphis and Laredo for Mexico City.

Several members of the squad that tried out here this week for the team and failed to make the four selected, expect to stay over for the South Atlantic tennis tournament next week.

## Olympic Boxing Tryouts Today

Mobile, Ala., March 25.—(P)—Officials of the Mobile Athletic club, under whose auspices the boxing tryouts of the amateur athletic union will be held here starting tomorrow night and continuing for three days are complete. The final of the tryouts will be staged Wednesday night.

Captain Charles Mahbutt, of Fort Rensselaer, Ga., national official of the A. A. U., in charge of the tournament, arrived in the city today. Arriving at the same time was Robert S. Hooks, of the University of Georgia, widely known football star, who claims the southeastern amateur light heavyweight championship. Although entry list is yet incomplete nearly 50 boxers have signed in the various divisions. More than that number reached the city today from New Orleans, Gulfport, Pensacola, Montgomery, Atlanta, Nashville and Memphis. Eight states are represented in the entries already sent in.

## HAWK-EYEING SPORTS

BY DICK HAWKINS.

### The Crackers

If you wish to prove conclusively that competition is the spice of life—to jumble together two famous axioms—look at the antics of certain of Atlanta's Crackers in practice sessions and exhibition games this spring.

Usually there are a couple of positions where candidates are not sure of their berths for the year but this year at Mr. Spiller's magnificent dell very few of the lads are cocksure enough to slide along at half speed right now.

If there is any doubt of this statement just take a poll of the positions. Behind the plate Johnny Brock is fairly certain of a job as first string catcher but Tom Angley has awakened to find that a German-Hidalgo boy from Jacksonville, named Lopez, is about to draw a favorite stiletto and sever him from a utility catching job. He hasn't done it yet but Tom must throw the old bus in high and never shift gears if he wishes to stay in Class A this year.

Around the initial sack Jim Poole has virtually assured himself of a job. He is hitting like a fiend and covering the field in better than average fashion. At the keystone a mystery arises that is not likely to be definitely solved until the season opens or maybe some time thereafter. Mills is striving valiantly to prove that his mission in life is to play shortstop or second base for the 1923 Crackers but he is not yet spending the money he might earn at either of these positions.

Johnny Jones is supposed to be coming today or tomorrow but will Johnny be able to cinch himself a berth when he does get here? Maybe or again maybe not. Corgan is somewhere in a hospital. May be out for baseball and may not.

At third base Walter Gilbert is virtually certain of his job for the very ample reason that he is one of the finest third sackers in the league today.

Then to the outfield and more quandary. Try and select three men from the quintet composed of Rhel, Strand, West, Tremper and Zoeller without making a mistake. It seems well nigh impossible. If Frankie is released to make way for a harder hitter two things may happen and one thing is sure to happen. The certainty is that none of the other four men will be able to lead off as well as Frankie. He is ideal for that position and to allow a bit of personal opinion to enter, we believe that Frankie is enough for any leadoff man. It also may develop that the heavy hitter to be kept in place of Frankie turns out to be just a mediocre slugger in the high 200's. Then a good leadoff man would be lost for the sake of adding strength that did not materialize.

Chosen from fielding ability alone Billy Rhel might be the one to let go but Billy has proven that he can hit Southern league pitching at a clip near the 350 mark.

Argue as far as you like, you will only come to the same impasse that now faces Bert Niehoff. No matter which way he goes the element of luck bulks large and immovable.

No use to even discuss the pitchers. There Bert is facing a harder problem than usual because he has not had an opportunity to watch his boys in action enough. The hitting ability of a man can be based quite safely on his past performance but with a hurler it is a different problem. No matter who he turns loose at least one of them will go elsewhere and set some league afire. That is always the way.

All of this is leading up to one plea. A plea to the fans to give Uncle Bert a chance. He may be lucky and he may not but no matter which way he goes he will be doing exactly what he believes is right. He plays no favorites does Bert Niehoff.

## LOMSKI FACES BOHEMIAN BOY FOR TITLE GO

BY WHITNER CARY.

New York, March 25.—(United News.)—Leo Lomski, the Aberdeen, Washington, assassin, will meet Joe Sekyra, Dayton, Ohio, Bohemian, in a scheduled 10-round light-heavyweight bout Friday night at Madison Square Garden. It will be the final bout in the garden before the circus moves into the arena for a month's engagement.

The winner will meet Tommy Loughran, of Philadelphia, light-heavyweight champion, in a title match contemplated for May 4.

Lomski is slightly favored because of his long string of knockouts and his irresistible attack which came near winning him the 175-pound crown in a previous match with Loughran. The Aberdeen Pole floored Loughran twice in the first round, but was unable to finish him and the champion retained his title by the narrowest of margins after 15 rounds of fighting.

Sekyra recently moved into the spotlight as a challenger for Loughran's title. He has knocked out three of his four opponents this year, and boasts a punch almost as deadly as Lomski's.

Both fighters are reported in excellent condition, according to word from their training camps. Lomski is training at Orangeburg, N. Y., and Sekyra at Pompton Lakes, N. J.

## EXHIBITION GAMES

West Palm Beach, Fla., March 25.—Big Tim Elliott, the ponderous pitcher of the Boston Red Sox, won his first five innings and held the Sox to a 1-0 victory over the St. Louis Cardinals today.

Score by innings: R.H.E. Boston (A. L.) 1 0 0 0 0—1 0 1 1. St. Louis (N. L.) 0 0 0 0 0—0 0 0 0. Batteries: Elliott, and Munn, Jeffcoat, Akins; Lundgren, Wolf, Ledbetter and Knox.

New Orleans, La., March 25.—The combined pitching of Emil Levens, Mel Harder and Walter Brown proved too much for the batting eyes of the New Orleans Pelicans, as they were defeated by the Cleveland Indians today.

Score by innings: R.H.E. Cleveland (A. L.) 2 1 0 0 0—2 1 1. New Orleans (N. L.) 0 0 0 0 0—0 0 0 0. Batteries: Levens, Harder, Brown and L. Sewell; Myatt, Kerr, Shuman and D. Anderson, Mitchell.

San Francisco, March 25.—Pittsburgh vs. San Francisco Beas and San Francisco Mission (morning and afternoon games). Postponed, wet grounds.

Dallas, Texas, March 25.—Dallas climaxed a slugging with a ninth-inning rally to defeat the Chicago White Sox, 10-6, in an exhibition game today.

Score by innings: R.H.E. Dallas (T. L.) 10 4 0 0 0—10 3 3. Chicago (A. L.) 6 0 0 0 0—6 0 0. Batteries: Connelly, Cox and McCurdy; Sherrers, Geary, Baker, Walker and Billings.

Sarasota, Fla., March 25.—Buffalo, of the International league, nosed out Philadelphia's Athletics here this afternoon by a 3-0-2 count, putting over the winning run in the ninth.

Score by innings: R.H.E. Buffalo (I. L.) 3 0 0 0 0—3 0 1. Philadelphia (A. L.) 0 0 0 0 0—0 0 0. Batteries: Sullivan, Lyons and Perkins; Fox, Ogden, Swamy and Devine, Fend.

Chattanooga, Tenn., March 25.—The Toledo Mudhens defeated the Chattanooga Southern leaguers, 8-0, in an exhibition game here today.

Score by innings: R.H.E. Chattanooga (S. A.) 0 0 0 0 0—0 0 0. Toledo (I. L.) 8 0 0 0 0—8 0 0. Batteries: Palmer, Pfeiffer and O'Neil; Devereaux, Pacey, Eyle and Lind, Lott.

San Antonio, Texas, March 25.—Superlative pitching by Ken Holloway and Vangilder, especially by the former, held the San Antonio Spurs to a 1-0 victory over the Detroit Tigers in the final game of the series today, 9 to 1, giving them two of the three games played.

Score by innings: R.H.E. Detroit (A. L.) 0 0 0 0 0—0 0 0. San Antonio (T. L.) 1 0 0 0 0—1 0 0. Batteries: Holloway, Vangilder and Phillips; Shea, Newman, Vogel and Mayers, Arell.

Los Angeles, Calif., March 25.—Pat Malone, former ace of the pitching staff of the Minneapolis American association club, led the Chicago Cubs offensively and defensively to an easy 8-0 victory over the Los Angeles of the Pacific Coast league, in an exhibition game today.

Score by innings: R.H.E. Los Angeles (P. C. L.) 0 0 0 0 0—0 0 0. Chicago (N. L.) 8 0 0 0 0—8 0 0. Batteries: Malone, Walters and Gonzales; Cunningham, Weisberg and Sandberg.

St. Augustine, Fla., March 25.—The New York Giants took the Newark Bears into camp by 8-0 in an exhibition game here today.

Score by innings: R.H.E. Newark (N. Y.) 0 0 0 0 0—0 0 0. St. Augustine (I. L.) 8 0 0 0 0—8 0 0. Batteries: Felt, Bishop and Daly; Brown, Thompson and Hayward.

Memphis, Tenn., March 25.—(AP)—Memphis, Southern association team, defeated Milwaukee, of the American association, 2 to 0 here this afternoon, winning a two-game series.

Score by innings: R.H.E. Milwaukee (A. A.) 0 0 0 0 0—0 0 0. Memphis (S. A.) 2 0 0 0 0—2 0 0. Batteries: Krueger, Sanders and Young; Thompson, Kelly, Walker and Sargo, McKea.

Chicago (N. L.) 0 0 0 0 0—0 0 0. Score by innings: R.H.E. Chicago (N. L.) 0 0 0 0 0—0 0 0. Batteries: Krueger, Sanders and Young; Thompson, Kelly, Walker and Sargo, McKea.

Chicago (N. L.) 0 0 0 0 0—0 0 0. Score by innings: R.H.E. Chicago (N. L.) 0 0 0 0 0—0 0 0. Batteries: Krueger, Sanders and Young; Thompson, Kelly, Walker and Sargo, McKea.

Chicago (N. L.) 0 0 0 0 0—0 0 0. Score by innings: R.H.E. Chicago (N. L.) 0 0 0 0 0—0 0 0. Batteries: Krueger, Sanders and Young; Thompson, Kelly, Walker and Sargo, McKea.

Chicago (N. L.) 0 0 0 0 0—0 0 0. Score by innings: R.H.E. Chicago (N. L.) 0 0 0 0 0—0 0 0. Batteries: Krueger, Sanders and Young; Thompson, Kelly, Walker and Sargo, McKea.

## New Shortstop Is Expected At Dell Today

Jones on Way, Says Spiller. Corgan Will Report Soon.

BY BEN COTHRAN.

According to Colonel Bell Jackson Spiller, Crackers president, another ray is expected to be added today to all the sunshine which has flooded the city of late when Johnny Jones checks in.

Jones is the shortstop purchased last December from Rochester of the International league, and is one of two men upon whom the Crackers management is counting to fill up that terribly gaping hole around second base.

Chuck Corgan, last year of Uncle Wilbert Robinson's Brooklyn Dodgers and now in Chicago having a lame back treated, is the other man to complete the Crackers infield combination.

Corn is also a shortstop and will probably play that position while Jones can take his station on the starboard side of the keystone. Both men are good in the field and do fairly well when making trips to the plate with their bats.

With an infield composed of Poole, first base; Jones, second base; Corgan, shortstop; and Walter Gilbert, third base, the Crackers are well fixed for the season.

The colonel stated Sunday night that the team will start training money to Jones Saturday, that Jones was expected to leave Toledo, Ohio, where he spends the winter, Saturday night, and should be in Atlanta today.

Corgan will be in Chicago for a week or so yet, but will be here in time to play in the opening game, He spent two or more weeks at Clearwater, Fla., training with the Dodgers and it should take him but a few days to get back in shape.

Last week the Crackers had the best weather possible, although it was slightly chilly the first part. But a practice game was played every day, with the regular team and the young ones every day except Thursday, when the game ended in a 6-6 deadlock.

Then Friday and Saturday the boys took on the regular team and the young ones in two games made 27 runs and 30 hits. Even though it was a case of a professional outfit playing a bunch of college boys, it takes more than a bad team to do that in two games.

More practice games are in the book for the week and the local fans get their first glimpse of big league outfits for the 1923 season when the St. Louis Cardinals, expected to raise some money by coming to the Crackers in the national league this season, blow into town for a game with our Crackers.

Macon. Friday Skipper Niehoff will bundle the gang onto a train and drop down to Macon for a practice game with the Peaches, and out over Uncle Wilbur Good, former Cracker and now manager of the Macon club.

The other day, however, will be devoted to regular training. The boys will be working with the Dodgers, where he has been working with the Dodgers, are to the effect that Billy West, the outfielder, will be in the city this spring. He was the best hitter Atlanta had last year. West has shown in the games he played in over the winter that he will be in all probability, be one of the leading hitters.

Peter Strand is beginning to find his batting eye and Saturday raked the outfield with several good hits.

If the pitching staff doesn't measure up to standard, then the colonel will be able to get help from Brooklyn in the form of Munn and Koussal, both good hurlers. With Ray Francis, Sherry Smith and Johnny Adeock to head the left handers, that department is well taken care of. Art Olson and Tom Rogers will be okay among the right handers, but a couple more of this variety may be needed soon.

Devereaux Milburn Will Leave Today. Aiken, S. C., March 25.—(United News.)—Devereaux Milburn, captain of the United States polo team, will leave for New York Monday where he will continue treatments for the collarbone fractured when his mount threw him during a hunt last week.

Milburn and several friends will accompany him in the private car of Harry Payne Whitney.

Milburn was resting comfortably today.

Ten Mathes Are Booked For U. of N. C. Golfers. Chapel Hill, N. C., March 25.—(P) Ten matches with North Carolina, Virginia and Georgia teams were announced today for the 1923 University of North Carolina golf team.

Duke, Washington and Lee, Davidson, University of Georgia and Georgia Tech are among those scheduled for the Tar Heels.

Los Angeles (P. C. L.) 0 0 0 0 0—0 0 0. Batteries: Malone, Walters and Gonzales; Cunningham, Weisberg and Sandberg.

St. Augustine, Fla., March 25.—The New York Giants took the Newark Bears into camp by 8-0 in an exhibition game here today.

Score by innings: R.H.E. Newark (N. Y.) 0 0 0 0 0—0 0 0. St. Augustine (I. L.) 8 0 0 0 0—8 0 0. Batteries: Felt, Bishop and Daly; Brown, Thompson and Hayward.

Memphis, Tenn., March 25.—(AP)—Memphis, Southern association team, defeated Milwaukee, of the American association, 2 to 0 here this afternoon, winning a two-game series.

Score by innings: R.H.E. Milwaukee (A. A.) 0 0 0 0 0—0 0 0. Memphis (S. A.) 2 0 0 0 0—2 0 0. Batteries: Krueger, Sanders and Young; Thompson, Kelly, Walker and Sargo, McKea.

Chicago (N. L.) 0 0 0 0 0—0 0 0. Score by innings: R.H.E. Chicago (N. L.) 0 0 0 0 0—0 0 0. Batteries: Krueger, Sanders and Young; Thompson, Kelly, Walker and Sargo, McKea.

## A CRACKER A DAY TO-DAY

ALPHONSO LOPEZ, Catcher.

BY BEN COTHRAN.

Don't think, now, when you gaze upon the countenance of the young man pictured at the left, that someone has his picture crossed. Lopez is a Spanish name and that's the picture of Lopez over there, new catcher, whom the Crackers secured recently from Brooklyn.

It just happens that Alphonso doesn't look much like a Spaniard, but he certainly looks like a catcher when he gets on the mask, chest protector and shin guards and goes behind the bat.

Saturday, in that affair the Crackers had with Oglethorpe, Skipper Niehoff worked young Lopez behind the plate for some few innings and the youngster looked good. Two men attempted to steal on him. With an easy motion Alphonso whipped the ball down to second and had the man out by 10 feet.

He's quite young and does fairly well with the stick, getting an average of 280 while with Jack-sonville, of the Southeastern league, last year.

Lopez began his professional career in 1923 with Tampa, where he was second-string catcher throughout the year. The next season he was promoted and was a first-string backstop. The year of 1927 saw him with Jacksonville.

It was while playing with this club that Lopez attracted the attention of Brooklyn scouts and he was signed for a tryout at Clearwater this spring. But, with a catching staff including such old-timers as Hutch Henline and Hargraves, Lopez couldn't quite make the grade and so the Crackers got him. He handles himself well behind the plate and has a good throwing arm. But he'll have to fight it out with Tom Angley to decide who'll stay here.

ALPHONSO LOPEZ

as Johnny Brock's aide and who'll go to Macon.

Lopez was born August 20, 1908, at Tampa, Fla., and raised there. He played baseball with the Sacred Heart college team of Tampa, and then left to become a professional. He stands five feet 10-1-2 inches and weighs 170 pounds.

# Elephant Puzzle Contest

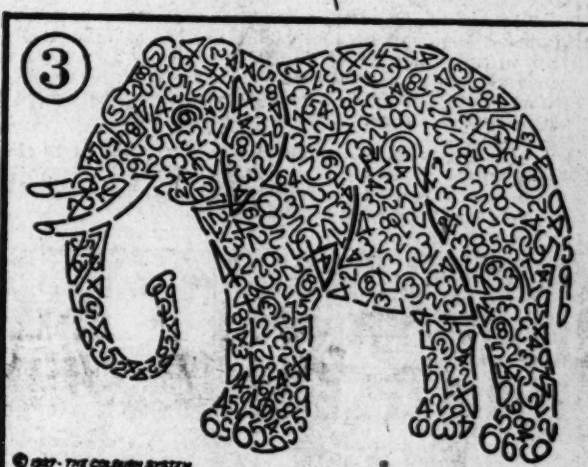

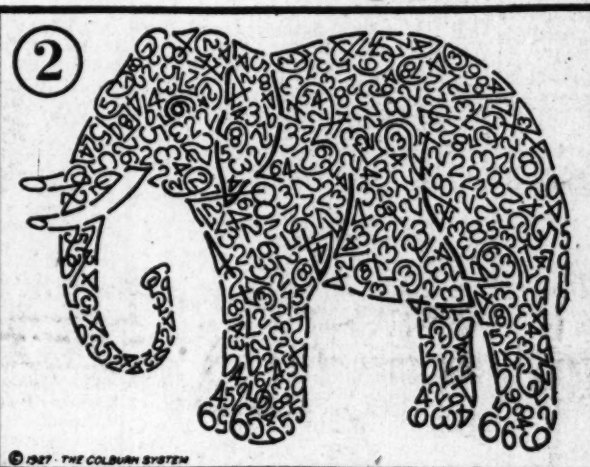

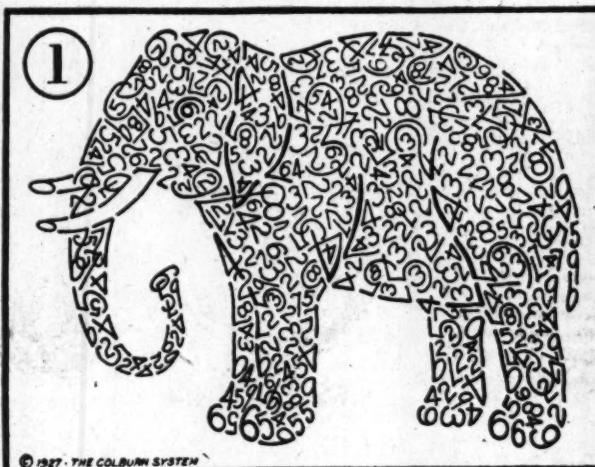

**30 Cash Awards**  
**\$1,500.00 First Prize**  
*Some One is going to win this \$1,500 Cash Prize--- Why not you?*

**IS OPEN TO YOU**  
**START TODAY**

**\$1,000.00 Second Prize**

**\$500.00 Third Prize**

**A Grand Total of 30 Cash Awards**

*Patience and Persistence are the only requisites in winning one of the 30 big awards.*

*Extra charts and subscription blanks obtainable from the Contest Manager.*

### THE PROBLEM

The sums total of the figures on each of the three elephants pictured herewith are to be given as a solution. You can find the sum total of each elephant by adding up the figures of each. The figures 1, 2, and 3 in the circles in the upper left hand corners of the elephants are simply to identify them. These figures have nothing to do with the elephants' weights.

In submitting your solution you must identify the three elephants by their numbers and give the weights of each. A complete solution means that you are to find the sum total of each elephant. It takes the sum total of each to make one solution. This is a game of skill and not a guessing contest.

There are no "4's" or "ciphers" in the elephants. There are no groups of figures, that is, the figure "9" is the highest figure shown. There are no "23's," "55's" or "97's," or like groups. If you find a "2" and a "3" are written so closely together that it looks like "23," it means that "2" and "3" are to be added—just as you would if they were an inch apart.

The tops of the "6's" are distinctly curved, and the bottom of the "9's" are straight or nearly so. There is no trick or illusion in the charts.

### GENERAL RULES OF THE CONTEST

1. This contest is open only to residents of Georgia and adjoining states. Both old and new subscribers may enter. No employee or member of an employee's family of The Atlanta Constitution will be allowed to participate in the contest, nor any of the prize winners that have won prizes in excess of \$100.00 in any of the elephant contests heretofore conducted by The Atlanta Constitution.

2. Contestants may submit as many different solutions as they may desire, provided a payment of one of the amounts designated in the prize list shall accompany each solution; but no contestant will be permitted to win more than one prize. Once registered a solution cannot be changed. NO SOLUTION UNACCOMPANIED BY A SUBSCRIPTION PAYMENT WILL BE REGISTERED.

3. The Atlanta Constitution offers these prizes for individual effort. While it is proper for members of one household or several friends to work together, it is not permissible for more than one of those working in unison to send a solution of the puzzle. When, in the judgment of the contest manager or The Atlanta Constitution, more than one member of the same family or more than one of any number of persons is believed to have worked together, send in a solution of the puzzle, the right is reserved to refund the amount of money paid for subscription and return the solution if it is believed has been submitted contrary to the rules.

4. The Atlanta Constitution reserves the right at any time to reject any solution which it believes has not been submitted under the proper conditions. In other words, any group of persons working together and submitting more than one solution, all submitted by the group will be barred. The Atlanta Constitution also reserves the right to finally decide any other questions or points which may arise in this contest, and participants by sending in their answers agree to accept the decisions of the contest manager or The Atlanta Constitution as conclusive and final.

5. In case of ties, as many prizes will be reserved as there are people tied before any prize are awarded for a less correct solution; that is, if two or more people should tie in the best solution, the first two or more prizes will be reserved for them, and they will be awarded in order of the standing of their solutions of the second puzzle. That is, the best solution will be awarded the first prize, the next best second and the third best third prize, etc.

6. All solutions with remittances must be delivered to the office at The Atlanta Constitution by 6:00 p. m., Thursday, March 29, 1928, or mailed at any post office in Georgia or adjoining states, bearing postmark of no later date than March 29.

7. The subscription rate of the daily and Sunday Constitution is \$5.00 for six months, \$9.50 for twelve months. All subscriptions in this contest must be paid in advance. Nothing less than six months' subscription will be accepted, and not more than twelve months' subscription is required. A subscription can be sent to one person and the solution credited to another, but the complete address of both must be given in each instance. This contest begins Thursday, Feb. 8, and ends Thursday, March 29, 1928. A subscriber, new or renewal, can submit a solution with his or her remittance of \$5.00 for six months or \$9.50 for twelve months subscription to the daily and Sunday Constitution. No additional qualifying conditions for subscriptions will be required after the closing of the elephant adding contest on March 29th.

### SOLUTION AND SUBSCRIPTION BLANK.

Date .....1928

I submit the following as my solution:

Sum total of elephant No. 1 .....Lbs.

Sum total of elephant No. 2 .....Lbs.

Sum total of elephant No. 3 .....Lbs.

Name ..... New Subscriber

P. O. .... State.....

Street No. .... or R. F. D. .... Mos. Amt. \$.....

Deliver paper my mail—by carrier.

I am inclosing \$..... to pay for ..... months subscription to the Daily and Sunday Constitution, qualifying my elephant solution as per offer and prize list.

Name ..... Contestant

P. O. .... State.....

Street No. .... or R. F. D. ....

Daily and Sunday Constitution 6 months, \$5.00; 12 months, \$9.50.

### Subscription Information.

The least amount to accompany a solution in this contest is \$5.00 for six months' subscription to the daily and Sunday Constitution, new or renewal. The greatest amount required is \$9.50 for twelve months' subscription to the daily and Sunday Constitution, new or renewal. All renewal subscriptions will be extended for the time paid for beginning with the present paid date of the expiration of subscription. Subscriptions secured by the means of this contest in Atlanta and suburbs will be delivered by carrier service. In towns outside of Atlanta where The Constitution has carrier delivery service, the paper may be delivered by carrier upon request of the subscriber or the contestant. Otherwise, the paper will be sent by mail.

### How to Win \$1,500.00

To enter this contest it is necessary to send but one paid-in-advance subscription to the daily and Sunday Constitution for six months with \$5.00, but you can increase the amount of the prize money that you will receive if you are a winner. For instance, with a \$5.00 remittance and six months' subscription, should you win first prize the amount paid would be \$500.00, but if the winner of first prize has qualified with a remittance of \$9.50 for twelve months' subscription, the prize will be \$1,500.00 instead of \$500.00.

\$500.00 will be awarded to the winner of first prize provided one six months' subscription to the daily and Sunday Constitution with \$5.00 remittance is sent, new or renewal, \$250.00 for second prize, \$125.00 for third prize, etc.

\$1,500.00 instead of \$500.00 will be awarded to the winner of first prize provided one yearly subscription to the daily and Sunday Constitution is sent with \$9.50, either new or renewal; second prize, \$1,000.00; third prize, \$500.00, etc. See last column in prize list. All subscriptions in this contest must be paid in advance.

### DECIDING TIES---IF ANY

40	34	65	74	24	96	64	38	01	75
08	26	28	06	73	36	34	29	05	02
75	88	50	93	72	52	27	93	29	50
58	53	92	58	05	27	49	92	27	58
72	25	39	02	54	58	20	72	85	25
36	72	94	28	00	38	72	58	95	25

In case of ties, a second puzzle, like the accompanying chart, except larger, will be presented for those tied to solve. The problem will consist of drawing a continuous chain across the chart encircling the figures in the circles. If necessary to eliminate further ties, the puzzle, with combinations changed, will be presented for as many as five more times, after which should any ties exist, each tying contestant will receive the full amount of any prizes tied for.

In case there are no ties on counting elephants no other puzzle, of course, will be presented.

## \$7,500

### Travel and Pedestrian Accident Insurance

issued to annual subscribers and immediate members of a subscriber's family of ages from 15 to 70 at \$1.25 per policy each per year. This fee is in addition to the subscription price. Applicants should give name in full, state age and occupation, and when a beneficiary is given be sure to state full Christian name and relationship to the insured.

This insurance feature is separate and independent, and has no connection whatsoever with the elephant contest. Those subscribing for twelve months are eligible to this insurance if desired, but it is entirely optional. This is a feature that is offered to all subscribers of the daily and Sunday Constitution.

### Closing Date

The Great Elephant Puzzle Contest Will Close  
 Thursday, March 29, 1928.

### Here Is The Great Prize List

Notes: The value of the prize depends on how much you pay on your subscription with your solution in the triplet elephant game. The amount paid will be applied to the daily and Sunday Constitution: Daily only or tri-weekly subscriptions not accepted in this contest, and no solution will be registered unless accompanied by at least \$5.00 for six months' subscription. The least amount is \$5.00 for six months' subscription, or the largest amount required is \$9.50 for twelve months' subscription.

Both the solution and subscription must be sent in at the same time in same envelope.

	Prize if 6 mos. sub. new or renewal with \$5.00 is sent.	Prize if 12 mos. sub. new or renewal with \$9.50 is sent.
First Prize .....	\$500.00	\$1,500.00
Second Prize .....	250.00	1,000.00
Third Prize .....	125.00	500.00
Fourth Prize .....	75.00	250.00
Fifth Prize .....	40.00	100.00
Sixth Prize .....	20.00	50.00
Seventh to Thirtieth Prizes .....	5.00	25.00
Total .....	\$1,130.00	\$4,000.00

### Important Facts To Remember

While the amount you pay with a solution of the puzzle does not have any effect on your winning an award, it does affect the amount you will receive should you win, as the value of these awards is determined by what the winners submit in subscription money. This is explained in the awards list, which you should study carefully before sending in your solution. The time a solution is received has no bearing upon its winning an award. Accuracy is what counts. Not more than one award will be awarded to any one person.

Mail Your Solution to

# THE ATLANTA CONSTITUTION

ATLANTA, GA.

## YAARAB CEREMONIAL FOR SPRING APRIL 4

Yaarab temple will hold its spring ceremonial session in the auditorium on April 4, and indications are that it will have the largest class in years to cross the hot sands to Mecca. Assurances that Yaarab's mosque will be ready for occupancy in a little over a year has spurred eligible Masons to seek membership in the Shrine, as has also the incentive of an imperial council session in the south, this event occurring in Miami the first week in May. Thousands of Shriners will stop off in Atlanta en route to Miami, and Yaarab's caravan will leave for the far-southern city on the evening of April 20.

Today is the last day on which applications for the class will be received. They are being received by Recorder George E. Argard when accompanied by a check for \$137 for the full fee.

The sessions will open May 1 in Miami and it is expected that for several days in advance many Shriners will be stopping over in the city on their way further south. They will be returning from Florida about May 4 and will continue visiting Atlanta until about May 10.

Illustrious Potentate Thomas C. Law states that every effort will be made by the local Shriners to attend to the entertainment of the visitors with many functions planned for their pleasure.

## LEG IS SHATTERED BY PISTOL BULLET

Alvin Calloway, negro, was treated at Grady Sunday for a broken leg shattered by a pistol ball in an altercation with Tilman Sagers, of a Maier street address, Calloway told police. Sagers had not been arrested Sunday night.

Ed Banks, another negro, is thought to be fatally injured from knife wounds inflicted by an unidentified man in the Red Rock Flats district early Sunday, police records show.

## 16-YEAR-OLD BOY, ACADEMY STUDENT, REPORTED MISSING

Police Sunday were asked to aid in a widespread search for W. M. Glenn, Jr., 16-year-old student of Riverside Military academy, reported missing from the Gainesville institution since last Tuesday night.

The boy's aunt, Miss Carrie Kirtley, of 604 Peachtree street, is seeking police aid, described him as a decided blonde, 5 feet 8 inches tall, with irregular teeth and full lips.

Young Glenn, the son of Mr. and Mrs. W. H. Glenn, of Laurens, S. C., had not been heard from by his parents at a late hour Sunday, Miss Kirtley told police.

He had expressed dissatisfaction with the school to his relatives here, and it is believed he came to Atlanta. Persons with information of such a senator, Monticello, Fla.; Ward Wight, real estate operator, Atlanta.

## TO ELECT TRUSTEE FOR EMORY BOARD

The vacancy on the Emory university board of trustees occasioned by the death of Thomas W. Connally, prominent Atlantan and former president of the alumni association, will be filled at an election to be held before the board meets in June, it was announced Sunday. The election date has not been set.

Nominations made by the alumni council for the post, to be held for a three-year term, include the following prominent graduates of Emory:

James Fred Allen, banker, New York; Nathan P. Bryan, federal judge, Jacksonville; Allen H. Bunce, physician, Atlanta; William Hamilton Johnson, lawyer, Gainesville; William P. King, minister, Athens; William A. Selman, physician, Atlanta; Charles B. Shelton, lawyer, Atlanta; Robert J. Travis, lawyer, Savannah; Theodore T. Trumbull, state senator, Monticello, Fla.; Ward Wight, real estate operator, Atlanta.

## MRS. S. A. LINDSEY, FLOVILLA LEADER, LAID TO LAST REST

Jackson, Ga., March 25.—Funeral services for Mrs. Sallie Ann Lindsey, 69 years of age, who died at her home in Flovilla Friday morning, were held Saturday afternoon at the Jenkinsburg Methodist church, with Rev. W. J. Bryson, of Flovilla, officiating. Interment was in the Jenkinsburg cemetery.

Mrs. Lindsey was the widow of the late E. I. Lindsey, and before her marriage was Miss Sallie Ann Steele, of Jasper county, but had resided in Butts county for the past several years. She was a member of the Flovilla Methodist church and was widely beloved. She is survived by her daughter, Mrs. J. T. Chambers, of Flovilla, and four grandsons, J. D. Bohannon, Atlanta; F. S. Bohannon, Jenkinsburg; A. I. Chambers, Eastman, and Fred Chambers, Flovilla.

## Thomas J. Wilson, 82, Prominent Veteran, Is Buried at Madras

Madras, Ga., March 25.—Thomas J. Wilson, aged 82 years, a Confederate veteran of this place, died Saturday morning. His death occurred in the same room in which he was born. He had lived in the same house his entire life with the exception of the time he spent in the Confederate army.

He is survived by his wife, three daughters and one son.

He was a lifelong member of the Methodist church and was highly respected.

Funeral services were conducted at the Jones Chapel church Sunday afternoon by the pastor, Rev. G. W. Hamilton, assisted by Rev. T. H. Shackelford, pastor of the Peachtree Road Methodist church of Atlanta. Interment was in the adjoining church cemetery.

## Burglar Swaps Shots.

The home of Lloyd Johnson, at 1375 Highland avenue, was entered by burglars late Saturday night, police were told. A neighbor saw the burglar leaving the house and opened fire on him. The burglar returned the shot and both bullets went wild.

## Furniture Company Fire.

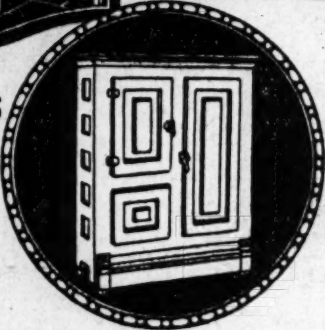

Fire of undetermined origin caused considerable damage to the Star Furniture company at 437 Peters street early Sunday morning. The fire was said to have started on the second floor of the two-story building. A large part of the damage was from smoke and water. The damage was estimated at \$1,000.

## THE GUMPS—HOME, JAMES

## JUGGERNAUT

By Alice Campbell

## SYNOPSIS.

Ether Rowe, a young nurse, having accompanied an invalid from the United States to Canada on the Riviera, is about to return to New York when she sees an advertisement in the paper for a nurse and doctor's assistant and decides to apply for the job in order to spend a little time in Canada.

While waiting for an answer to her application to Dr. Sartorius, Ether treats herself to tea at the fashionable Restaurant des Ambassadeurs. She becomes interested in the conversation of a beautiful French woman and her escort, an Englishman, who sit at the next table. On returning to her hotel Ether finds a note from the doctor asking her to report in the morning.

The beautiful French woman of the restaurant comes to see Dr. Sartorius and Ether learns that she is Lady Clifford. A few days later her husband, Sir Charles Clifford, is stricken with typhoid fever and Dr. Sartorius gives up his practice and laboratory work to devote himself exclusively to Sir Charles. Ether is taken on the case as day nurse.

Roger Clifford, Sir Charles' only son, arrives in Canada. Sir Charles tells his son that he has changed his will, to the extent of making him executor and trustee of the whole estate. Roger is attracted to Ether and invites her to dine and dance with him. They go to one of the fashionable restaurants in Canada.

On returning to the house Roger comes upon his stepmother in the darkened drawing room with Arthur Holliday, who has been paying Lady Clifford some attention. Roger orders Holliday to leave the house.

The next day Sir Charles breaks the news to his wife that he has named his son executor of his estate in his will. Lady Clifford dies in a rage.

Shortly afterwards Roger complains of a headache and his aunt, Miss Clifford, offers him one of her remedies. In trying to open the bottle, Roger breaks it and cuts his hand. Ether is called in to bind up the cut and, in her haste, she mistakes the doctor's apocryphal remedy, which he has just used on Sir Charles. The doctor is unwarrantably angry with her over this carelessness. Two days later Sir Charles dies. Ether finds the medicine, but instead of returning it to the doctor, she has it analyzed. Lady Clifford eliminates her, but before she leaves she gets the report from the chemist that the apocryphal remedy contained typhoid germs. As she is about to warn Roger she is attacked and taken from the house unconscious. Some time later she awakens to find herself in an alcove of Dr. Sartorius' laboratory.

## INSTALLMENT XLIX.

## PROVIDENCE INTERVENES.

Clutching on the back of a chair for support Ether eyed the sloping glass above her and made certain rough calculations. If she mounted upon a chair placed on the table she might fairly easily unfasten the big central group of panes, which was the part that opened outward.

Standing upon the chair she began with shaking fingers and as hurriedly as she could to undo the rusted curtain hooks from their big wooden rings. She had managed only the first one when a sound from the street below made her stop and listen, petrified. A car had stopped. Like a flash she was down again on the floor and in one panic stricken movement had slithered back on the camp bed and drawn up the army blanket over her, as it had been when she came in. As far as she could remember it she arranged herself in her former position, half turned towards the wall on her right side. Thank heaven it was darker now.

She waited and waited. At last, when she thought she could bear no more, the footsteps of two persons mounted the steps to the laboratory. The key grated in the lock of the door. Heavy steps at once crossed the floor and paused beside her. She heard the doctor's breathing as he bent over her, she smelled the tobacco pipe of his clothing, and felt her cheek burn as though seared beneath his scrutiny. Presently he spoke, in her ear, it seemed.

"O God, yes, I gave it to her all right!"

Ether experienced a sharp shock. The second voice was that of Captain Holliday. How on earth did he come into this? Or had he been in it from the first?

Suddenly, without the least warning, she felt a cruel pinch on her shoulder. The doctor, to satisfy himself, had resorted to this crude but effectual method of finding out if she were quite unconscious or not. At least it might easily have proved effectual, only providence intervened. She never knew how it was she did not shriek aloud, but instead managed to remain perfectly quiescent, unresisting. A second later she had her reward. She heard the huge man move away, his step creaking across the bare boards out into the main room. She breathed again, and listened.

For about two minutes there was silence, then Holliday spoke, bursting out with a sort of defiance that had terror in it, she thought.

"See here, Sartorius, I'm going to clear out. I've had enough. I didn't know what I was letting myself in for the other day, or I wouldn't have helped you out."

"You'll stay here."

"The hell I shall! Who'll keep me if I want to go?"

"You appear to have got the idea that you are sacrificing yourself for me. That is not quite true. By doing as I tell you and remaining here you are saving yourself."

"How do you make that out?"

"It is perfectly simple. You realize of course that that woman in there is the only person who has the knowledge necessary to bring a charge, no one else has even a slight suspicion. Therefore it is hardly worth while to emphasize the reasons for keeping watch over her closely until such time as I am able to dispose of her satisfactorily. These things take time and thought. One can't rush into them without running risks."

"I suppose one has to admit all that but why in hell's name have I got to be her jailer? If she's unconscious, why can't she be left alone?"

"Simply because I refuse to take the risk. There is no knowing what might happen; one can't be sure of anything."

There followed the scratch of a match and the smell of cigarette

smoke. Then, as if reading his friend's thoughts, Sartorius continued.

"And in case you have any secret intention of giving me the slip, just bear this in mind: If the detention of this girl ever comes out, the fat will be in the fire, for you just as much as for me. Dead or alive, it will make little difference, you are bound to be implicated."

"But it is essential to get rid of the girl entirely!" Holliday asked in a jerky fashion. "Isn't there any other means of keeping her quiet?"

"O, yes, but nothing that can really be depended on. I could, of course, by means of a simple operation, destroy certain areas in the brain which would deprive her of memory and speech, but these faculties sometimes have a tiresome tendency to restore themselves or to delegate their functions to other areas. No, there is only one safe plan, and even that wants thinking out. There must be no trace left."

"God!" exploded Holliday weakly, yet with a kind of boiling. "Why don't I go straight to the police and give the whole show away? I've had a mind to."

"If you did go to the police you would deprive yourself of a large fortune. By sitting tight and saying nothing you will quite soon be able to marry Lady Clifford. In the circumstances you will hardly persist in attaching a purely fictitious value to two insignificant lives."

"Two!" gasped the younger man in a whisper. "Then you really mean to go on with Clifford?"

"I have no choice in the matter. It has become imperative to remove him. Since his father appointed him trustee of the estate, Lady Clifford is powerless to draw any large sums of money without his knowledge and consent. Consequently she would not be able to remunerate me for my services to her without regard to her husband."

"You mean it would rouse his suspicions if she kept paying out money to you?"

"Exactly. Of course to take on more than one case was more than I bargained for, but the thing was practically forced on me. It was Lady Clifford herself who began it without consulting me. She had kept back some of the typhoid culture, having sworn to me that she had thrown it all away. She started putting it into his bottled mineral water—she would keep the water a day or two in her own dressing room, then carry it into his room and exchange it for the bottle that was there already. A fool's game—at any moment she might have been caught at it. However, there you are, she took the risk, then came to me and told me what she had done and why."

"I see. Then you only have to leave Clifford alone and let the disease take its course, I suppose?"

"Not at all. Typhoid artificially given seldom is severe enough to kill, particularly in the case of a young and vigorous subject. No, we should have to find some excuse for administering the pure toxin. It would do the trick at once, and without the least fear of detection. However, that is my difficulty, the man refuses utterly to submit to any sort of injection. Fictitious prejudice."

Ether's heart gave a leap. Roger was still safe, he had not given in. (Copyright, 1928, for The Constitution)

## Easy Electric Washer Is Becoming Popular in Atlanta

The Easy Electric clothes washer and dryer is daily becoming more popular with the discriminating housewives of Atlanta. The popular acclaim is not unfounded, since there are many reasons for it. The principle used in washing has long since been proved by the American housewife, having originated 51 years ago.

The vacuum principle is the only type that has stood the test over such a long period without change. While the movement of the vacuum cups is gentle enough for silks, rayons and net curtains, it will, by its ability to penetrate, wash the heavier garments such as rag rugs, overalls and blankets. The penetrating action obtained by the cups enables one to wash pillows by forcing water through and through the feathers while still in the tick. This, of course, is not possible with a machine which does not use the vacuum cup action.

The wonderful new dryer leaves the clothes much dryer than any other method, and there are no wet spots or dripping seams. Even feather pillows will not drip coming out of the dryer. The safety of the new dryer is a factor of which there cannot be enough said. Naturally, buttons are not taken off by the dryer, nor are

there any deep rolled wrinkles to iron out, and there is absolutely no chance of the operator or children catching fingers as in the old type roll wringer. Safety was uppermost in the mind of the designer of this wonderful machine. Of course no antiquated belts are used that would catch children's fingers or the skirts of the operator.

There are many other modern features, such as the starting and safety switch, the control for heating water in the tub, sterilizing clothes, boiling hot dyeing and cold pack dyeing. This means that if you want beautiful, hot, boiling water for any purpose you can quickly have it, the same as your soapuds water or boiling dye liquid.

Another feature included in this new Easy washer, which will be greatly appreciated by the housewives, is the labor saving pump which handles all the water, leaving not a teardrop to be hauled by the operator.

This splendid washing machine is on sale and demonstrated by the Easy Washer Shop, at 410 Peachtree street. It is not convenient for anyone interested to call by their salesrooms, just give them a ring at IVy 3047 and one of their live salesmen will be pleased to make a complete demonstration in your home.

## 385 RAIL FIRMS ISSUE REPORTS

R. L. BARNUM.

New York, March 24.—(United News.)—Up to the beginning of this week annual reports for 1927 had been published by 385 important railroads, industrial corporations and public utility corporations. These statements are interesting in view of the high record weekly turnover of 20,815,000 shares just established in the stock market with the average price of 50 representative stocks at a new high record for all time.

Included in this total of 385 annual reports for 1927 is found 38 from public utility corporations. For 1927 these 38 public utility corporations show an increase in net income over 1926 of 9.3 per cent.

Net income of 207 industrial corporations for 1927 shows a decrease compared with 1926 of 3.8 per cent. Net income last year of 40 railroads shows a loss compared with 1926 of 14.2 per cent.

Of the 385 companies 26 show gains in 1927 net income compared with 1926 of from 54.4 per cent to 100 per cent. Twenty-three companies show decreases in net ranging from 53.6 per cent to 95.4 per cent. Eighteen companies report deficits of from a few thousand dollars to staggering amounts.

Steel Report Issued. On the opening day of this week the United States Steel corporation published its 1927 annual report. Gross earnings of \$1,310,000,000 compared with \$1,508,000,000 for 1926. This is a decrease of \$198,000,000.

The 1927 surplus for dividends is \$87,345,000 against \$116,667,000 for 1926. There was no change in the price of the stock, which was \$25.219,000. Because of the 40 per cent stock dividend last year's cash dividends on the common shares called for \$1,815,000, against \$35,581,000 for 1926. After payment of preferred and common dividends there was a surplus of \$12,863,000 against \$53,868,000 for 1926.

On the opening day of this week the National Bank of Commerce in its regular monthly analysis of the financial and industrial situation and outlook says: "Spring expansion of business is well under way. The increase in industrial operations has been more gradual than it was in 1927 and it is quite likely that at no time during the first half of the year will production reach the high level it did at the end of last March. But the period of spring activity bids fair to last longer than it did last season with large aggregate volume for the first half year."

Encouraging Details. Building details follow as to the position and outlook for steel, building, automobile, machine tool, chemical and other industries which in the past have served as accurate measures of what is ahead. Due weight is also given to adverse factors with the conclusion reached that the second quarter of 1928 definitely justifies optimism.

If this prediction is fulfilled the stock market is likely to continue irregular, some stocks advancing or declining violently. In brief, unless something unfavorable now unforeseen occurs the stock market is likely to continue highly selective. The shares of companies which for one reason or another are making money will go higher with declines occurring at the same time in other companies.

For the conservative investor or speculator, the stock market at its existing price level has little attraction. There are few stocks to be found on the market offering satisfactory income return in the event of a sudden

## DRINK MORE PURE WATER FOR YOUR HEALTH'S SAKE

The Pura Water company, distributors for the celebrated Bescot water, from Bescot Lithia Springs, near Austell, Ga., has a large fleet of trucks now covering the Atlanta territory and is better prepared than ever to supply the needs of all who want a good spring or mineral water.

This healthful water has been sold in Atlanta and throughout Georgia for over 30 years and has always been in popular demand. This Bescot water, due to its high saline content, is frequently prescribed by physicians for organic disorders.

The plant of the Pura Water company, at 100 Piedmont avenue, S. E., is centrally located, being but four blocks from Five Points, and is quickly reached from all parts of the city. As an added inducement to get more people to drink this water, they will continue their "serve-yourself" system and give a substantial reduction to all who drive to their salesrooms for their water supply.

This company continues to produce and deliver anywhere in this vicinity its Pura Water (triple distilled) and High Rock Spring water, with cooler service. There is little doubt but that if our Atlanta people will drink more pure water they will soon notice it will pay large dividends in improved health.

## NORTH AMERICAN SHOWS INCREASE IN 1927 EARNINGS

New York, March 25.—(AP)—Net income for the North American company in 1927 was \$19,254,047, equivalent to \$4.06 per share on the average number of shares of common stock outstanding, the pamphlet report showed today. Income for 1926 was \$17,563,507, or \$3.85 per share. The common stock was increased in 1927 to 4,514,863 shares of no par value from 4,091,322 shares of \$10 par value in 1926.

The end of the year showed nearly a million customers served by the company's electric service alone, President F. L. Dame said.

Continuation of the corporation's original policies, he added, are protection against "any apprehension of a frank and fair survey of its administrative principles through the medium of either the United States senate or the federal trade commission."

## AMENDS REFUSED BY CHINESE AFTER NANKING OUTRAGE

Shanghai, March 25.—(AP)—It is officially announced that the efforts of the British minister, Sir Miles Lampson, to arrange a settlement growing out of the anti-foreign outrages at Nanking, in March, 1927, have failed and the minister is returning to Peking. Negotiations will continue, however, between the Chinese and the British consul.

It is unofficially explained that the negotiations failed because Sir Miles refused to concede the Chinese demands for an expression of regret for the shooting of the Standard Oil company's concession, known as Nanking Hill, and for a revision of the treaties now in effect.

Unexpected break in prices. The average conservative investor or speculator having liquid capital today is willing to wait until good stocks can be bought at prices below those now existing.

## Sandwich Firms of Atlanta Are Efficient Organizations

Visitors to Atlanta are agreeably surprised to find such tasty and fresh sandwiches at our drug stores and cold drink stands and yet they never see any evidence that they are prepared on the premises.

These same visitors would probably be amazed if they were to visit the source of supply these drug stores have on the other end of their telephone, for Atlanta has several sandwich companies with very efficient organizations that make and distribute more than 10,000 sandwiches every day.

One of the largest of these is the Fulton Sandwich company, at 385-387 Grant street, S. E., which makes 24 different kinds of sandwiches daily for their trade, and their retail customers know that if they are given any kind of a large order the Fulton will see that the customer will get it when wanted.

The proprietor, H. D. Smith, who has had 12 years' experience in making sandwiches for the trade in Atlanta, believes that to make the best sandwiches one must have the best food, so he has standing orders with Armour and Kingan, meat pack-

ers, and the Stone and American bakeries for specially made bread. The same applies to the produce companies where he buys his celery and lettuce to always send him the best they have.

This firm furnishes all high schools but one in Atlanta with sandwiches on school days and has a big trade with drug stores, soda fountains and social clubs. It makes special orders for bridge parties, fraternal lodges, weddings and receptions, and when the occasion requires, it can deliver a dozen or a hundred sandwiches to any part of Atlanta in 30 or 40 minutes.

In the regular trade, the concern delivers to all parts of Atlanta and surrounding towns fresh goods every day.

As a sandwich is an article of food that everybody wants fresh, if those who buy them will call for the Fulton brand, which has the name on the wrapper, he will know that the sandwich in the package is fresh, because this firm does not overload its customers but makes as many deliveries with fast motor cars or motorcycle side cars as will fill the customer's needs.

## YOUR BOY AND YOUR GIRL

BY ARTHUR DEAN, SC. D.

### IN THE SHOE SHINING PARLOR.

"I'd kept the \$52,000." "I wouldn't have done that but I'd taken the bag home and had the fun of counting \$2,000 one dollar bills." "I would have done that but I'd seen that a reward was being offered." These pearls of wisdom were prompted by the reports that a poor, ignorant and out-of-work man found a bag containing fifty-two thousand dollar bills which had fallen out of an armored car. The patrons of the bootblack stand in which I chanced to be expressed themselves first and then the bootblack sagaciously said:

"By golly, it was a very big bunch of money; more than I gets by working a million years. But it did not belong to the poor fellow and the fellow who lost it would have lost his job if it hadn't been found and perhaps he had families and much children and besides a feller sleeps better if he's honest."

I was just starting for a national conference on character education, where high-brows were to put in three days in analyzing the character of the subject in a paragraph. What more could I learn?

But I went and I learned a lot that wasn't true, a lot I'd taken with me that was a piece of salt and the fellows who lost it would have lost their jobs if it hadn't been found. Here they are—all kinds. No child is honest about anything. Private school children are more honest than public school children. A knowledge of honesty does not necessarily mean honest behavior. Children who attend Sunday school are no more honest than those who do not. A child who may cheat in school will not necessarily steal money from the mother's purse, and ring-around-the-rosy. Children showing knowledge of etiquette also show a better conception of right and wrong. Ninety per cent of those who say it is right to let another pupil copy their work actually cheat themselves.

I'll take exception to the last, at least—statistics or no statistics. There are three kinds of lies, you know, white, black and statistics. One investigator of character education has had the audacity to say that children who have taken certain pledges incident to certain clubs are dedicated to boy and girl life were not as truthful as those who do not belong to any organization. Why doesn't some fool professor go a bit further and say that children who get no physical exercise are stronger than those who take systematic training?

"I'll agree that no child is honest in everything and that one had act does not mean that a boy is all bad. Furthermore, more preachers should do not get anywhere as compared with simple lessons in moral codes accompanied by large opportunities to practice them in every day sports, work, studies and home duties."

What would your boy have done with the \$52,000 bag in the gutter? The out-of-job poor chap found it in and received \$1,500 reward. The comment of one civil service employee was, "I'd hide it away, take out a hundred at a time, blow it on a trip to Havana, to Europe, on the race track. It would have lasted me 52 years."

Do you dare to give a character test to your child? Would your boy give you a "goody goody" answer? Much depends upon how a question is presented. Say to your boy: "Now you wouldn't, would you, let your school mate copy your work?" The boy will say: "No, papa, of course not." Ask him this way: "The Bible says, 'Help one another.' Poor Johnnie has a lot of hard work getting his lessons done, wouldn't you be willing to give him your answers to copy?" The reply will be: "Sure, papa. 'Surely, papa, I love to help poor little boys.'"

If you care to try it and can stand either the truth or the hypocrisy you will get a lot of interesting tests which can be used in the home or the school. If you are not ashamed of the results, help one another. The questions have been truthfully answered, send them to me with an s. a. s. e. and I'll come back with my personal response.

### "THE JAZZ SINGER" OPENS SIXTH WEEK AT METROPOLITAN

Al Jolson's "The Jazz Singer," which opens its sixth week today at the Metropolitan is in a class distinctively its own. It is a class of entertainment and record runs. Without the great amount of entertainment to be found in it, or without the true value of its story, mostly that of a mother's love for her son, it wouldn't have been the entertainment sensation it is. And, without Vitaphone the picture would hardly have the success it has, but the combination has made a "natural" for entertainment and "The Jazz Singer" is soaring continuously to higher success.

The story is remarkably well told, its high points are brought out harmoniously, and part of the story told with music, by Vitaphone, is wonderful. Jolson sings several of his famous songs during the picture and the reproduction of the sounds by Vitaphone is exceptionally clear.

In all, "The Jazz Singer" is one of the most exceptional entertainment works ever brought to Atlanta and that it is liked and appreciated is

## AT THE THEATERS

VAUDEVILLE-PICTURES—

CAPITOL—Jimmie Hodges' Follies: three acts of vaudeville, and "Soft Living" on the screen.

KEITH'S GEORGIA—Five acts: "The Great Gatsby" and "The Woman on the Beach."

LOEW'S GRAND—Five acts: "Bringing Up Father."

PICTURES-STAGE SHOWS—

HOWARD—"The Patent Leather Kid," Van Arnam Minstrels.

PICTURES-VITAPHONE—

METROPOLITAN—Al Jolson's "The Jazz Singer" in its sixth consecutive week at this house.

MOVIES—

ALAMO NO. 2—"Three Hours," "The Great Gatsby" and "The Woman on the Beach."

NEIGHBORHOOD MOVIES—

EMPIRE—"Coney Island," "The Great Gatsby" and "The Woman on the Beach."

FAUCETT—"The Great Gatsby" and "The Woman on the Beach."

POINCE DE LEO—"The Woman on the Beach."

WAB—"One Woman to Another."

WEST END—"Get Your Man."

Capitol.

Jimmie Hodges, foremost musical comedy ace of the south, will open a third season today, along with the personal appearance of Louise Glaum, noted screen vampire, two of the great vaudeville acts and "Soft Living," an entertaining feature picture starring Madge Bellamy and Johnny Mack Brown, former star of the University of Alabama. Jimmie Hodges will present a miniature musical comedy condensation of "Honey Moon Isle," Miss Clara will appear in dramatic playlet entitled "The Web." Other acts are Wilkins and Lottie Atherton.

Keith's Georgia.

Billie Dove, who more than ever seems entitled to be called "the most beautiful woman on the screen," will be seen this week at Keith's Georgia in her latest feature, "The Love Mart." After her great success in "The Love Mart," Billie Dove is now seen as a member of the Follies, heading a chorus of 50 beautiful girls with Mildred Harris, another screen beauty in the lead.

Loew's Grand.

Two double bills, one in pictures and one in vaudeville are at Loew's Grand theater. The picture "Bringing Up Father," while the added picture will be "40,000 Miles With Lindbergh." The vaudeville bill will be headed by Freeborn's Follies. The picture "Bringing Up Father" is a comedy of the return engagement by request of Art Gillham, "Whispering Pianist," of Columbia recording fame.

Howard.

The regeneration of an "East Side" and the Rialto brings to the screen the love of a woman, the graphic story of "The Patent Leather Kid," which opens at the Howard today. "The Patent Leather Kid" stars Richard Barthelmess, and is an ideal vehicle for the artistry of this young screen star. The Howard, in presenting Van Arnam's Minstrels, is offering something wholly different from its usual Public stage show. Van Arnam's Minstrels consists of 30 clever black-face entertainers.

Rialto.

Douglas Fairbanks as "The Gaucho" at the Rialto brings to the screen the most romantic and picturesque character he has yet achieved. "The Gaucho" is a fast disappearing type, from the past, another motion picture somewhat similar to our cowboy playmen. In this particular tale which Doug spins, "The Gaucho" is a bandit who, whose power is so great as to threaten the military rule of the usurper, Ruiz.

Alamo No. 2.

Corrine Griffith's powerful drama, "Three Hours," a screen version of May Edington's story, heads the bill at the Alamo No. 2 theater today. In some respects Miss Griffith's newest picture resembles her famous success, "Black Oxen."

W. T. STANDARD DIES AT WASHINGTON HOME

Washington, Ga., March 25.—(Special.)—W. T. Standard, 69 years old, former commissioner of roads and revenues of Wilkes county, died at his home near Washington. He had been in ill health for several months and recently had suffered a stroke of paralysis.

Surviving him are his wife and seven children, Sam J. Standard, of Tignall; Mrs. T. E. Grande, of Washington; Mrs. Frank Warren, of Tignall; Miss Elizabeth Standard, of Atlanta; Dan H. Standard, W. T. Standard, Jr., of Ocala, and Mrs. John Doster, of West Palm Beach, Fla. Funeral and interment will be held Monday afternoon at 4 o'clock, at Fishing Creek church.

DEAN ALEXANDER INDORSED HERE FOR A. M. E. BISHOP

Enthusiastically approving the election of Dean Alexander, V. G. Alexander, to the bishopric of the African Methodist Episcopal church at the general conference to be held in Chicago in May, a large and representative group of Atlanta ministers and laymen, including Dean Alexander, Sunday afternoon in the Odd Fellows' auditorium on Auburn avenue.

Bishop J. S. Flippin presided at the meeting and declared that Dean Alexander's character, service and scholarship made him the logical man in the church for the post.

"To my personal knowledge," said Bishop Flippin, "for 40 years Dean Alexander, without a single exception, has met every requirement of his church and should now be made bishop as a fitting reward for his consecrated service."

J. W. Forkner, of the Congregational church, and the Rev. Perry of Liberty Baptist church, read resolutions that had been approved by their entire membership in behalf of Dean Alexander.

J. W. Williams, presiding elder of the Atlanta district, and President Quillian, representing the young people of the church, said those they represented were solidly for the election of Dean Alexander.

Dr. T. H. Slater, the Rev. T. W. Holmes, Dr. R. M. Butler, the Rev. G. L. Word and many others spoke in behalf of Dean Alexander.

Georgia has the largest diocese in the A. M. E. church and it is generally conceded that the bishop will be elected from this state.

## BRITISH OIL MEN FIGHT STANDARD

Delhi, India, March 25.—(AP)—When the Standard Oil Company of New York recently purchased a controlling interest in the Indian oil fields, it started an oil war in India which now has reached the government tariff board. It was announced today that an immediate inquiry will be made by the board with a view to protecting Indian petroleum against the results of the price war between the American and Dutch interests. Dutch oil is sold in England.

Imported petroleum has been dumped into India at prices below world parity. The official announcement says that decision to make the inquiry was based on representations from a number of other companies affected by the tactics of the big producers.

The government does not desire by its protection policy to lay a heavy burden on the consumer and thus needlessly increase the profits of the principal producers. But it believes that measures can be devised whereby substantial relief can be given the consumer while at the same time a disproportionate share of the higher prices charged to consumers will be prevented from falling into the hands of the stronger outfits.

The tariff board first will determine what price for kerosene should be taken as the equivalent of world parity at Indian ports. It also will report whether protection against dumping is in the national interest and if so, what form that protection should take.

A still further inquiry by the board will seek to determine whether it is likely that the present price war will extend to gasoline, and if so, what measures should be taken to stop that development.

GASOLINE SUBSTITUTE FOUND BY SCIENTISTS

Warsaw, Poland, March 25.—(AP)—An official commission of specialists has made successful experiments with a new motor fuel, an alcohol mixture invented by an engineer named Jezewski.

The commission found that the mixture, which is made from ordinary alcohol of 92 to 94 proof, gives an easier start, smoother motion and saves from 30 to 55 per cent of the fuel consumption as compared with benzine.

Faucett Mystery.

Lima, Peru, March 25.—(AP)—The fate of Colonel Faucett, missing Brazilian explorer, still is being speculated on by Peruvian newspapers. Dr. Carlos Rostigoli, is of the opinion that the explorer, who disappeared in the Brazilian jungles, will never be found alive.

New Issue

To be dated April 1, 1928

Cumulative Sinking Fund Calculated to Retire the Whole Issue At or Before Maturity

A substantial amount of these bonds has been placed in Canada and Europe

Principal and interest payable in New York City, at the office of either of the Fiscal Agents, Hallgarten & Co. and Kissel, Kinnicutt & Co., in United States gold coin of the present standard of weight and fineness, or at the option of the holder, in London, at the head office of Westminster Bank Limited, Sub-Fiscal Agent, in sterling at the exchange rate of \$4.8665 to the Pound, without deduction for any Colombian taxes, present or future. Coupon bonds in denominations of \$1,000 and \$500, registrable as to principal only. Redeemable on any interest date at face amount on not less than 20 days' notice.

A cumulative Sinking Fund of 1% per annum is provided for, to operate semi-annually through purchase of bonds at or below face amount, or if not so obtainable then by call of bonds by lot at face amount. The Republic reserves the right to increase the amount of any sinking fund payment, and to tender bonds in lieu of cash.

HALLGARTEN & CO. and KISSEL, KINNICUTT & CO., Fiscal Agents. NATIONAL BANK OF COMMERCE IN NEW YORK, Registrar.

The following information has been furnished by His Excellency, Dr. Esteban Jaramillo, Minister of Finance and Public Credit of the Republic of Colombia:

COLOMBIA: The Republic of Colombia adjoins the Isthmus of Panama and has a coast line both on the Caribbean Sea and the Pacific Ocean. It has an area of over 475,000 square miles (more than that of all the states on the Atlantic Seaboard from Maine to Florida) and a present estimated population of over 7,800,000. The country is rich in natural resources, both agricultural and mineral. American companies have large investments in the mining, oil, fruit and live stock industries, total American investments in Colombia being estimated at approximately \$220,000,000.

OBLIGATION: These Bonds will constitute the direct obligation of the Republic of Colombia, secured by its full faith and credit. The Republic agrees, among other things, that if while any Bonds of the present loan are outstanding, it shall secure any loan by a lien or charge upon any national income or revenues, the Bonds of this loan shall be secured in like form, equally and ratably with such loan.

PURPOSE: The proceeds of this issue will be devoted to railroad and highway construction purposes, pursuant to Law 102 of 1922 and Laws 12 and 106 of 1927, authorizing this issue.

REVENUES: Ordinary revenues and ordinary expenditures in recent years have been as follows:

	Ordinary Revenues	Ordinary Expenditures
1923	\$32,425,591	\$21,440,345
1924	32,576,680	23,179,928
1925	45,005,038	29,874,087
1926	54,163,088	46,372,006
1927	60,639,694	48,923,664

In the period 1922 to 1926 the Republic also received treaty payments from the United States in the total amount of \$25,000,000. During the same period, the Republic, in addition to the ordinary

All conversions of pesos into dollars in the foregoing have been made at parity of exchange. The Republic has agreed to make application to list these Bonds on the New York Stock Exchange.

These Bonds are offered when, as and if issued and accepted by us and subject to the approval of counsel, Messrs. Sullivan & Cromwell of New York City, who as to questions of Colombian law will consult with Dr. Pedro M. Carreno, Bogota, Colombia. We reserve the right to reject subscription in whole or in part, to allot less than the amount applied for and to close the subscription books at any time without notice. Temporary Bonds or Interim Receipts deliverable in the first instance at the office of Hallgarten & Co., 44 Pine Street, New York City.

Price 95 and interest, to yield over 6.35% to maturity

Hallgarten & Co. Kissel, Kinnicutt & Co. Halsey, Stuart & Co. Lehman Brothers

Cassatt & Co. William R. Compton Company The Northern Trust Company

E. H. Rollins & Sons The Equitable Trust Company Graham, Parsons & Co.

Illinois Merchants Trust Company of New York Ames, Emerich & Co.

Trust Company of Georgia

The statements contained in this advertisement were obtained partly by cable. We regard them as reliable but in no event are they to be construed as representations by us. The above offering is confined to banks and trust companies, corporations and to licensed dealers in securities.

March, 1928.

## FRANCE PREPARES TO GATHER GOLD

Paris, March 25.—(AP)—The administration of Premier Poincare and officials of the Bank of France are determined to increase greatly the bank's gold stock far beyond the contingencies recently arrived from New York, and it is believed that the present movement of gold to France has just begun.

The aim of the government is to transform into gold a considerable part of its \$1,000,000,000 abroad in credits and exchange and to have the Bank of France collars of the bank's gold stock far beyond the contingencies recently arrived from New York, and it is believed that the present movement of gold to France has just begun.

French credit, in and outside of the country, will be effectively strengthened by the actual presence in the Bank of France collars of the bank's gold stock far beyond the contingencies recently arrived from New York, and it is believed that the present movement of gold to France has just begun.

The French net circulation of \$8,000,000,000 francs could be 75 per cent covered by the 3,000,000,000 francs gold now in the Bank of France and five or six billion francs gold or equivalent abroad. The purpose of the government, it is explained authoritatively, is not to bring back the total amount now abroad but to increase its gold stock in Paris enough to approximate fifty per cent of the note circulation. Unlike ordinary citizens of other countries, one of the characteristics of the French peasant is that he wants gold for part of his money just to know he can get it and keep it.

Government experts have concluded that the peasant would not be content when the franc is finally stabilized to receive other pieces of paper, but must know that he also can get the gold.

Before launching the program to bring huge stocks of gold home the Bank of France sounded out the Bank of England and was told that the Egyptian gold stocks were not sufficient large to spare much or any for France to acquire and it would be better for international finance for France to leave her balances in England alone and draw from New York.

According to the suggestion it is understood here that the New York bankers gave sympathetic reception to the proposition to withdraw any amount of gold from the Bank of France and it would be better for international finance for France to leave her balances in England alone and draw from New York.

Utilities were generally strong. Power Securities preferred gained 10 points, Central States Electric 14, Electric Bond and Share showed reactionary tendencies.

Oil and pipe lines were in little demand, although Cities Service and Standard of Kansas moved to new high ground.

The feature of the bond market was the heavy initial trading on Friday in Warbush 4-1-28.

New issues admitted to trading during the week included American shares of the French line, first foreign issue to be traded on the curb.

Woman Leader Dies.

Copenhagen, Denmark, March 25.—(AP)—Mrs. Nina Bang, the first woman to hold a post in the Danish cabinet, died today. Mrs. Bang was minister of education in 1924. She became critically ill Thursday.

## NET HIGH GAIN MADE ON THE CURB

New York, March 25.—(AP)—The curb market reflected the bullish demonstrations of the stock exchange during the past week. Movements throughout the week were wide and the trend was upward, but without a definite leader. Net gains ranged as high as 35 points and losses as much as 10.

The wireless issues, leaders in the advance during the previous week's record-breaking business, moved with in narrow limits in lighter trading week. The leadership at various times to the chain stores, motors and utilities. Canadian Marconi ended the week nearly a point and Marconi Wireless of London 2 points lower. Spanish and General, however, was in demand, although it advanced less than a point.

Early in the week, the motors were buoyant on the strength of motor issues on the "big board" and reports of increased production, sales and earnings. Ford of Canada registered a net gain of 16 points. Marconi moved up nearly 4, but profit-taking reduced most of the gains and Auburn, one of the leaders, ended the week nearly 3 points net lower.

Safeway Stores led the chain store issues upward, advancing 38 points. There were also gains of 18 points by Deere & Company, 19 by U. S. L. Battery and 10 by Libby Owens and Kalamazoo Store on speculative buying.

Q. R. S. similarly was lifted 13 points net. Announcement that extra dividends would be declared caused a bad break in Bancitaly, and it closed the week more than 7 points lower. Profit-taking caused losses of 3 to 10 points in other industrials.

Utilities were generally strong. Power Securities preferred gained 10 points, Central States Electric 14, Electric Bond and Share showed reactionary tendencies.

Oil and pipe lines were in little demand, although Cities Service and Standard of Kansas moved to new high ground.

The feature of the bond market was the heavy initial trading on Friday in Warbush 4-1-28.

New issues admitted to trading during the week included American shares of the French line, first foreign issue to be traded on the curb.

Hubbard Bros. & Co., Cotton Merchants

Hanover Square, New York

Members New York Cotton Exchange, New Orleans Cotton Exchange, New York Produce Exchange, associate members Liverpool Cotton Association. Orders solicited for the purchase and sale of cotton and cottonseed oil for future delivery. Special attention and liberal terms given for consignments of spot cotton for delivery. Correspondence invited.

WEEKLY REVIEW OF BOND MARKET

New York, March 25.—(AP)—The bond market last week was one of the most active of the year and it steadily advanced of prices carried many issues to the highest levels of the year or longer. Particular interest was manifested in public utility bonds, largely because of the recent expansion of the list of bonds in that group which are legal for savings bank investment in New York state.

Railroad issues also followed a firm trend, probably influenced in part by the comparatively small volume of new offerings carried into the market in the past two weeks. Reinvestment buying, which this year has not gathered the force which was evident in early 1927, also was a factor in the week's firm trend. Many buyers have been disposed to hold off pending a reduction in prices for listed mortgages, but the lowering of quotations has been extremely moderate.

The material tightening of the money market, which had been widely predicted around the middle of February, and even earlier, has not yet developed; and this fact may have retarded some bond traders to resume their buying. Large shipments of gold have been made in recent weeks, particularly to South America, and the reduction of federal reserve holdings of government securities has continued at a moderate pace. These transactions, ordinarily likely to cause hardening of money rates, have not yet brought any marked advance in quotations on time loans or commercial paper.

Neither new offerings nor buying of listed bonds this year has so much as approached the record-breaking volume of the early weeks of 1927. It is a natural supposition, then, that there is a large amount of money awaiting the most propitious time to find employment in bond investment.

## BURGESS CHILDREN'S STORIES

BY THORNTON W. BURGESS.

Bobby Pretends Not to Believe.

Some people always will pretend and care not if they are offended.

—Peter Rabbit.

Bobby Coon had just caught a minnow. Peter Rabbit had watched him. Peter had sat a long time watching Bobby, and Bobby had sat a long time watching the minnows in the Laughing Brook. But now that Bobby had caught his fish, Peter knew that he wouldn't interfere by showing himself. So Peter hopped into view and down to the edge of the Laughing Brook.

"Hello, Bobby Coon!" called Peter.

Bobby looked up. He had just swallowed the last of that little minnow and as he looked at Peter, he was licking his lips. "Hello, Peter!" said Bobby, good-naturedly, for having caught his fish he was feeling good-natured. "What brings you over here at this time of day?"

"I was looking for a friend of mine," replied Peter.

"And who might that friend be?" inquired Bobby.

"A fisherman," replied Peter, and grinned.

"Do you mean Billy Mink or Little Joe Otter?" inquired Bobby Coon, looking as innocent as if he didn't know all the time who it was Peter meant.

"Neither one," replied Peter. "I came looking for the one you are looking at."

Bobby, grinned then, for he had happened to be looking at his own reflection in the Smiling Pool. "All right, Mr. Curiosity," said he. "What is it you want to know this time?"

"I want to know what you know about your cousins who live 'way down south,'" said Peter.

"Who says I have any cousins living away down south?" answered Bobby.

"Scrapper the Kingbird," replied Peter. "Scrapper says you have some cousins who look a good deal like you and that you have some who don't look a bit like you, and they all live down in that warm country where he spends the winter. Any way, they are in some country that he goes to on his way to his winter home. He says that one of them has a long nose and a long tail and another has a very long tail and a very long tongue. And he says they all belong to the Raccoon family. Is that true, Bobby Coon?"

Now, that was a hard question for Bobby. You see this was the first he had ever heard of those cousins. He didn't really believe in them, yet he didn't dare say that Scrapper's story wasn't so, because it might turn out that it was so.

"Did you ever see a Coon with a long nose?" he demanded of Peter.

Peter shook his head and said, "No."

"If you met one with a long nose and a long tail you wouldn't believe it," said Peter.

It was a Coon, would you?" persisted Bobby.

"I-I don't know," stammered Peter.

"Well, let me tell you this much," replied Bobby. "I never yet have seen a Raccoon with black bars on his face, rings on his tail and with a nose longer than his own. So I don't take much stock in what Scrapper the Kingbird says. It's a very easy matter to tell strange stories about places where you know your hearers never have been and never will go. I may have some relatives down there, but I doubt if I have any such looking relatives as you have told me about. Do you know what I think?"

"I think," replied Bobby, "that Scrapper the Kingbird has just been stuffing you."

## Constitution's Patterns

A PRACTICAL SET OF SHORT CLOTHES FOR THE TINY TOT.

5935. This set comprises a dress, rompers, petticoat, sack and cap. The dress may be made of crepe, voile, muslin, dimity or china silk. The petticoat of lawn or long cloth. The rompers of gingham, rep or pongee. The sack of flannel, silk or satin. The bonnet of lawn, chiffon or crepe de chine.

The pattern is cut in three sizes: 6 months, 1 year and 2 years. A 1-year size requires 1 3/8 yards of 36-inch material for the dress, 3/4 yard for the petticoat, 1 1/4 yards for the rompers, 3/4 yard for the sack and 3/8 yard for the bonnet.

Pattern mailed to any address on receipt of 10c in silver or stamps.

A STYLISH MODEL FOR YOUTHFUL FIGURES.

6083. Velvet, satin, crepe, printed voile and georgette, also printed silk are all excellent for this design.

The pattern is cut in three sizes: 16, 18 and 20 years. An 18-year size it made as illustrated will require 1 1/4 yards of 32-inch material for the dress, 1/2 yard for the underbody, and 3 1/2 yards of 36-inch material for the dress. The width of the dress at the lower edge is 2 1/4 yards.

Pattern mailed to any address on receipt of 10c in silver or stamps.

Send 12c in silver or stamps for our up-to-date spring and summer 1928 book of fashions.

In ordering patterns write name and address plainly on a sheet of paper. Order by number and include price in silver or stamps. Do not mail letter to The Constitution building in Atlanta, but address as follows: Fashion Department, The Constitution, 11-13 Sterling Place, Brooklyn, New York.

## I HAVE SAID IN MY HEART

BY IDAH MGLONE GIBSON.

## PAIN IS NOT A SWEETENER

Contrary to the teaching of a famous beauty who advocates "Mind" for every beauty ill, from a corn on the little toe to jaundice, I believe that the condition of the body has a greater effect upon the mind than mind has upon the body.

We cannot separate mind from body, and of the action of mind apart from the body we have no direct experience and absolutely no knowledge. Consequently all mental facts are first physical facts.

Pain—physical pain—is a purely animal sensation, and yet it can blot out every thought of anything but the terror of it and the agonizing effort to allay it in some way. You cannot think when you are in pain.

I know now that one might be overcome with deepest grief while following the person one loves most to his eternal rest, and if one should crush one's fingers on the motor door in the descent from the vehicle at the grave, every thought of grief would be swallowed up in the sensation of physical pain.

Some people say that pain sweetens one's character, but I have the same opinion of that idea that I have of the old cry that poverty is a great character builder.

These "axioms" roll glibly off one's tongue if one has never suffered grinding, galling poverty nor agonizing pain.

I know that pain leaves its imprint on the face. There is a little muscle that goes from the side of the mouth to the chin that physical pain draws down until one looks ten years older. This will go away in time if one tries immediately to laugh and be happy after the pain has gone.

Sir Charles Bell says of laughter: "It signifies in all points the accession of vital force. Laughter builds up." This, too, you see, is a physical act, and the mere act of smiling and laughing will help one on to pleasant thoughts.

Memo: I do not believe, with Whittier, that "Hearts, like apples, are dry and sour till crushed by pain's relentless power."

## DIET AND HEALTH

BY LULU HUNT PETERS, M. D.

## ANSWERS TO CORRESPONDENTS.

## Glycerine Solution for Winter Itch and Chills.

M. writes that she thoroughly relieved winter itch by rubbing on her skin a mixture of one-third glycerine and two-thirds water. R. finds that it relieved her chills.

Thanks for your contributions, M. and R.

Glycerine, if it is diluted sufficiently with rose or pink water, is a most efficient skin softener and protector against chaps and dryness. So it is reasonable to believe that it will help in winter itch, which is due in some cases to dryness of the skin. Some people have to dilute it still more for it to be effective.

1. The only value of yeast in the diet is that it is very high in vitamin B, the anti-neuritic vitamin. But it is without doubt much more logical to get your vitamins in the bulkier foods which also contain other food values. Tomatoes in any form (raw, canned or dried) are very rich in vitamin B as well as the growth vitamin, and in C, the anti-scurbutic vitamin. Cabbage, especially fresh, is rich in vitamins A and B. These three vegetables are the aristocrats of the vegetable kingdom. (Tomatoes are really a fruit). Greens, onions, parsnips, peas, milk, liver, kidneys, brains, citrus fruits and nuts are all high in vitamin B, as well as in some of the others. So you see, you have a long list of foods to choose from.

The yeast extracts which are put up under various trade names are also very high in vitamin B, and these make delicious flavorings for soups and sauces. And what will interest those who are reducing, they are so low in calories you can ignore them.

2. Will mineral oil used in mayonnaise and French dressing furnish sufficient fat for the diet?

Mrs. M., because it is a mineral fat and is not absorbed by the system. If taken in other than very moderate amounts it may, however, absorb the vitamins in foods; thus you might be leached of your vitamins. It is only recently that some work has been done which shows this possibility. Those who are constantly taking large amounts for constipation should think of this.

3. Yes, olive oil is a good fat. It is devoid of mineral elements and vitamins, but it is a pure power or heat producer. (It will not cause gallstones to be dissolved, as is commonly thought.)

4. All breads made from the grains leave an acid ash, just the same as does white bread.

We have an article on the Balanced Diet and one on Constipation which are helpful. Send a self-addressed, stamped envelope and two cents in coin for each of these.

Nightmares.

Yes, you should consult your doctor, F. Nightmares may be due to some easily remedied physical disorder, and if your family doctor doesn't help you, you should consult a doctor who specializes in psychoanalysis. You may be raving in your sleep because you are not raving in the daytime and have to have some self-expression, or because you have some buried worry which talking over with your physician might relieve.

Have you found the nightmares have any relation to overeating at your evening meal or before going to bed?

Editor's note: Dr. Peters cannot diagnose nor give personal advice. Your questions if of general interest, will be answered in the column in turn. Requests for articles must be accompanied by a fully self-addressed, stamped envelope and two cents in coin to cover cost of printing and handling. For the pamphlet on reducing and gaining, 10 cents in coin with fully s. s. e. must be enclosed. Address Dr. Peters in care of The Atlanta Constitution.

## A Scooter that is a Scooter--

A Typical Atlanta Constitution Prize—The Very Best That Money Can Buy.

Lightning Fast, Sturdy and Strong!

1. Bicycle type steering post and tubular head.
2. Long steering post bearing prevents wobbling.
3. Double disc steel wheels with accurate roller bearing. Very fast.
4. Tires of extra quality rubber.
5. Corrugated, waterproof footboard.
6. Automobile type hub-brake, safe, simple and effective.
7. Wonderful finish; Semi-gloss baked enamel on frame and handle—Beautifully polished nickel on steering post and fork.
8. Two coats of baked red enamel on wheels.

### The Atlanta Constitution's SPECIAL SCOOTER OFFER

Boys and girls in all parts of the city of Atlanta, and also in towns outside of Atlanta now have an opportunity to earn a scooter. It is to secure only three new six months' subscriptions to the daily and Sunday Constitution. Step out and get these subscriptions while getting is easy. Be a "GO GETTER" and "GET GOING" TODAY!

# Given Away

For Only **3** New 6 Months

DAILY AND SUNDAY SUBSCRIPTIONS

TO

## The Atlanta Constitution

Whoop it up, boys and girls, this is a cinch! Here's the slickest running thing on wheels and it's dead easy to earn one. There are thousands of people in Atlanta and Georgia right now just ready to subscribe to The Atlanta Constitution. It only takes three NEW daily and Sunday subscriptions to get this whang of a scooter. You can do it E-A-S-Y! Start now before some other go-getter beats you to your best prospect!

**Step Out Now, While the Getting's Good**  
**New Subscriptions Must Be New!**

A new subscription means a person who is not now taking the daily and Sunday Constitution at any address directly or indirectly, and has not during the past 60 days, and the subscription is not to take the place of someone who is now taking the paper at any address directly or indirectly.

PAY NO MONEY! COLLECT NO MONEY!

### ALL YOU HAVE TO DO IS

just cut out "Enrollment Coupon" and bring, send, or mail to the Circulation Dept., The Constitution, corner Forsyth and Alabama Sts., Atlanta, Ga., for subscription blanks and instructions for securing The Constitution scooter.

## NO-ING The Air Waves!

BY THE DIAL TWISTERS.

The next five or six nights promise such radio entertainment we will have to stick close to our dials or features we cannot afford to miss will pass us by in the ether—Trader Horn, the great Hollywood broadcast, and others equally as unusual.

The week starts off in grand style Monday night with a number of programs we will all want to hear. First of interest, probably, will be the A. & P. Gypsies at 7:30 o'clock over the red network, including WSAI, WGN, WGY and others. The Gypsies will bring a program dedicated to the Empire State of the North, New York. Once more we will hear Al Smith's campaign song, "The Sidewalks of New York." It may again be a campaign song, should the same Al Smith make a determined stand for the democratic nomination.

Columbia university's song, "Sans Souci," will be offered, as will Schumann's "Traumerel," "Bachmanale" from "Samson and Delilah" and a special arrangement for strings of "Etude No. 3" (Chopin).

Martha Atwood will lead the General Motors family party at 8:30 o'clock over WSB. This hour has come to be looked upon as one of the features of the week's radio entertainment. Tonight's program will be exceptional in many ways.

The story of the founding of the state of Delaware will be related at 7 o'clock tonight over WWJ. Peter Minuit, first realtor, the one who bought Manhattan for \$24, settled Delaware and it is the story of his adventures he had doing it will come to us in Great Moments in History.

Then at 8 o'clock over WSB, the Riverside hour will offer some piano solos, among them, "Pale Moon," "Rise and Shine," and "Everywhere You Go" played by Lee Sims from the Chicago studios of the NBC. Other numbers to be heard will be "When Love Comes Stealing," a tenor solo, "Florence Nightingale," and "Say It With a Red, Red Rose."

The Columbia chain will broadcast four feature programs tonight. These will be heard from KMOX, probably, although we get them from WAUI at times. The do from KOIL, (sounds smeared with republican doesn't it?).

Anyway, at 8 o'clock tonight we will be carried to Gotham, elegant, or should we say "night club." The modern love story program will present a musical dramatization of a little romance that took place in one of New York's gilded palaces recently.

Then at 8:30 o'clock Don Voehes' concert orchestra will give semi-classical and popular works. The program for tonight includes "Dance Baroque," "Lotos Land," "Dawn" and "Dark Nocturne."

The La Palma program at 9 o'clock is a knockout. A Spanish senorita, a Spanish orchestra and instrumentalists and soloists known as La Palma's gang, all from the Casino at Havana await those who get this program.

The Buccaneers will be on at 9:30 o'clock with their "Vindictive" band. Members of the Balalaika orchestra were guest artists, playing numbers of Russia during the days of St. Petersburg and the czar's sway. Among numbers not often heard on the air was the quartet singing "Song of the Volga Boatman." "Danube Waves Waltz" (Ivanovic) added to the Russian atmosphere. But other numbers took us, who still remember, back to our own United States of 25 years ago.

The thunderstorm certainly raised the dickens with the long land wires between WSB's studios at the Biltmore and the NBC studios at New York Sunday night. It is not often that we cannot get local stations, but Sunday night was one of those nights. The storm cut the connections all during the evening. Out of town station reception was impossible. It was a shame, too, as a most ambitious program was broadcast over KDKA and others of the WJZ chain featuring Broadway stars of today and other days in the Equity features.

BY THE ASSOCIATED PRESS. Programs in central standard time. All time is p. m. unless otherwise indicated. Wave lengths on left of call letters, kilocycles on right.

428.5-KY, Chicago-370-5-00, Agitation; Uncle Bob; 6:30, Roxy and His Gang; 8:00, Riverside program; 8:30, WJZ program; 9:30, Dixie Trail.

## 20 BANDITS SLAIN DURING RAID ON MINE IN MEXICO

Mexico City, March 25.—(AP)—Special dispatches to the newspaper Excelsior from Guanajuato report that 20 bandits were killed and six federal soldiers wounded in a fight Friday after an attack had been made by the bandits on "cubs" in the gold and silver mine district near Villapando. Rural police stationed at the mine resisted the robbers until federal troops, summoned from a nearby garrison, arrived. The bandits fled and the federalists pursued them, keeping up a running fight until the surviving robbers scattered in the mountains.
